Kannur ◆ +91 9207253529 ◆ shamilpk40@gmail.com

Objective

Python Full Stack Developer with **01+ year** of professional experience and internship exposure, holding a Bachelor of Commerce (B.Com) degree and specialized certification in Python Full Stack Development. Proven expertise in building scalable web applications using Django, REST APIs, and modern front-end technologies. Strong background in database optimization, secure authentication, and live deployment of production-ready applications.

Skills

- Full Stack Development
- API Integration
- Authentication
- Performance Optimization
- Version Control
- Web Applications
- Database Design
- Deployment
- Debugging
- Testing

Experience

Python Full stack Developer, 01/2025 - Current
Saoirse LLP IT Solution Kannur – Kannur

- Developed and deployed a live investment platform, supporting real-time user transactions and scalable growth.
- Built core backend modules using Python Django, including referral, investment, and payment systems with automated commission calculations.
- Integrated RESTful APIs to enable secure data exchange and seamless platform functionality.
- Designed dynamic product displays for multiple categories, improving navigation efficiency by 30%.
- Implemented wishlist functionality inspired by leading e-commerce platforms, enhancing user engagement.
- Optimized database queries and schema design, improving application performance and scalability.
- Enhanced user experience by enabling clickable product titles and personalized product access.
- Successfully hosted and maintained the platform on a live server, ensuring uptime and stability.

Full stack Development Intern, 05/2024 - 12/2024
G Tec Computer Education Kannur – Kannur

- Designed responsive front-end interfaces using HTML, CSS, and Bootstrap, ensuring cross-device compatibility.
- Developed an admin panel to manage users, restaurants, and orders efficiently.
- Implemented secure login and signup authentication with session management.
- Utilized SQLite for backend data storage and dynamic content rendering.
- Enabled users to browse offers and apply discounts before order placement.
- Configured automated email notifications for order confirmation and updates.
- Tested and debugged application features, improving overall system reliability.
- Ensured proper MVC structure and clean code practices throughout development.

Education

Bachelor of Commerce (B.Com – Cooperation): corporation, 2020
Kannur University, Kerala

Python Full Stack Developer: 2024
G-Tec Computer Education, Kannur - Kannur

Higher Secondary: Commerce, 2017
MG Higher Secondary School

Projects

Investment Platform

- Django-based investment management system with live hosting and real-time transactions.
- Implemented referral rewards, payment tracking, and automated commission calculations.

Food Delivery Platform

- Full-stack web application enabling restaurant browsing, food ordering, and admin management.
- Included dashboards for restaurants, food items, orders, and delivery tracking.

Accomplishments

- Successfully delivered and deployed multiple full-stack projects in production environments.
- Recognized for strong backend logic implementation and clean UI integration.

Additional Information

- Self-learning emerging web technologies
- Participation in coding practice and project-based learning

Software Proficiency

- Python
- Django
- Flask
- REST API
- HTML
- CSS
- JavaScript
- Bootstrap
- MySQL
- MongoDB
- SQLite
- Node.js

Soft Skills

- Problem Solving • Analytical Thinking • Time Management • Team Collaboration • Attention to Detail • Communication • Adaptability • Learning Agility

Personal Details

Date of Birth: 12/01/2000
Nationality: Indian
Marital Status: Single
Gender: Male

Languages

Malayalam
English
Tamil

Hobbies

- Music, Photography, Travel
