PROFILE

Enthusiastic **SAP ABAP fresher** with foundational knowledge of **ABAP programming**, **WRICEF, Data Dictionary**, **Reports (ALV)**, and **Smart Forms**. Familiar with SAP concepts such as **debugging**, **BDC**, and basic **enhancements**. Eager to apply technical skills in real-time SAP environments, learn new technologies, and contribute to efficient SAP application development. Strong analytical skills with a positive attitude toward continuous learning and teamwork.

TRAINING

SAP ABAP Training 08/2025 – 02/2026
Version IT Hyderabad, India
• Hands-on training in ABAP programming and WRICEF objects
• Developed reports, Smart Forms, and data upload programs
• Worked on real-time business scenarios and debugging

SKILLS

- **ABAP Data Dictionary (SE11):** Data Elements, Domains, Tables, Views, Search Helps, Lock Objects, Foreign Keys
- **Modularization Techniques:** Include Programs, Subroutines, Function Modules, Macros
- **ABAP Open SQL:** Data retrieval and database operations
- **Reports:** Classical, Interactive, ALV, Group Reports, Logical Database
- **Module Pool Programming:** Table Controls, Custom Screens (SE51, SE80)
- **Interfaces:** BAPI implementation based on business requirements
- **Data Migration:** LSMW, BDC (Call Transaction & Session Method)
- **Enhancements:** Customer Exits, BAdI, Implicit Enhancements
- **Forms:** SAP Script and Smart Forms

PROJECTS

ALV Report for Sales Data
- Fetch data from VBAK & VBAP
- Display output using ALV Grid
- Created an interactive ALV report to display sales order data with sorting and filtering.

Smart Form – Salary Slip
- Designed a Smart Form for employee salary slip generation with dynamic data binding.
- Design a salary slip
- Pass employee data from ABAP program
- Import/Export parameters

Excel Data Upload Program
- Designed and implemented an ABAP report to upload employee data from Excel files into a custom SAP table using GUI_UPLOAD.
- Processed data using internal tables and work areas with validation checks.
- Implemented error handling for incorrect or incomplete data during upload.
- Applied data validation, error logging, and internal table processing to handle large datasets efficiently.

EDUCATION

Dr. Babasaheb Ambedkar Marathwada University 2025
Bachelor of Engineering (Computer Science Engineering) Chh. Sambhajinagar
CGPA: 6.87

Gramin Polytechnic College 2021
Diploma (Computer Science) Nanded, India
Percentage: 84.06

CERTIFICATES

SAP ABAP Programming – SAP Certification
• Learning Basic ABAP Programming
• Deepening ABAP Programming Knowledge
• Building Data Models using ABAP Dictionary & ABAP Core Data Services (CDS)
