https://github.com/sohailk007 Kolkata

SUMMARY

Full Stack Python Developer with experience building scalable, secure web applications using Django, Flask, and FastAPI. Skilled in React.js for frontend development and MySQL, SQLite, PostgreSQL, Mongodb for database design and optimization. Strong foundation in system design and AI integration, with a focus on delivering high-performance, business-driven.

EXPERIENCE

Python Developer

Intlum Technologies

09/2025 - 12/2025 Kolkāta, India

- Built a production-ready **Django REST API**–based investment management system, enabling secure investor transactions and comprehensive admin control.
- Implemented a **scalable backend stack** using **Django, DRF, Docker, Nginx, and Gunicorn**, ensuring performance, security, and reliability in production.
- Integrated Meta (Facebook) Ads APIs to track ad-driven investments and campaign performance for data-driven administrative insights.

Python Developer

Clapgrow Technologies

03/2025 - 08/2025 Kolkāta, India

- Developed and customized **full-stack applications using Frappe/ERPNext**, focusing on backend logic, frontend UI components, and business workflow automation.
- Integrated third-party APIs to streamline enterprise workflows, improve data synchronization, and enhance system functionality.
- Implemented WhatsApp API integration within **Frappe applications** to enable real-time notifications, customer communication, and automated business interactions.

Python Django Developer Trainee

WebSkitters Technologies

08/2024 - 02/2025 Kolkāta, India

- Built a **full-stack e-commerce application** with dual dashboards for users and administrators, integrating **Razorpay payment gateway** for secure online transactions.
- Developed a Finance Tracker application to monitor, categorize, and analyze expenses with clear financial insights.
- Designed and implemented a Freelance Marketplace platform with user profiles, service listings, and role-based access control.

EDUCATION

BCA - Bachelor of Computer Application

Future Institute Of Management Technology & Science

07/2021 - 08/2024

CERTIFICATIONS

Python Django Framework
WebSkitters Academy

Ethical Hacking
Indian Cyber Security Solutions

Computer Networking
Indian Cyber Security Solutions

NISM VIII - Equity & Derivatives
National Institute of Securities Markets
