linkedin.com/in/sona-mariya-siju

Computer Science undergraduate specializing in Cybersecurity, with hands-on experience in technical event coordination, documentation, and Gen Z–focused digital marketing. Currently serving as Marketing Lead at a student-run cybersecurity startup, where I combine technical understanding with content strategy and team leadership. Experienced in coordinating interns, managing campaigns, and working across technical and non-technical teams.

Skills

Cybersecurity & Technical Skills: Cybersecurity fundamentals, Networking, Network Security, Cryptography, Steganography, Log File Analysis, Anomaly Detection, Linux, Kali Linux, Wireshark, Nmap, IP Scanner
Tools & Platforms: MS Excel, MS Office, Jira, Google Workspace, Canva
Leadership & Professional Skills: Team Leadership, Documentation, Technical Reporting, Communication, Collaboration, Time Management, Intern Management

Experience

Marketing Lead – Cybernix (Student Cybersecurity Startup) Dec 2025 – Present

- Leading Gen Z–oriented digital marketing and content strategy for a student cybersecurity startup
- Managing interns by assigning tasks, conducting meetings, and tracking progress
- Planning and executing campaigns for bootcamps, workshops, and cybersecurity initiatives
- Collaborating with technical teams to translate complex cybersecurity concepts into accessible content
- Supporting brand positioning, outreach, and community growth initiatives

Documentation Member – Cyber Security Association (CYA) 2024 – 2025

- Prepared and maintained documentation for cybersecurity events and technical activities
- Assisted in organizing and documenting Cyber Cluedo 2025 – Digital Mystery Hunt
- Supported coordination between organizers, volunteers, and participants

Coordinator – Astra National Level Tech Fest 2025

- Coordinated event activities and assisted in managing participants at a national-level technical festival
- Supported planning, communication, and smooth execution of technical events
- Conducted Cyber Cluedo, a digital mystery hunt focused on cybersecurity concepts
- Coordinated event planning, registration management, and participant communication
- Led marketing and promotional activities to drive participation
- Collaborated closely with a co-organizer to ensure smooth execution of the event

NSS Secretary – School Level 2021 – 2023

- Coordinated activities involving 48 student volunteers
- Assisted in planning and execution of social outreach and leadership programs
- Developed leadership, organizational, and communication skills through team coordination

Projects & Activities

Blockchain-Based Blue Carbon Registry & MRV System (Ongoing)

- Working on a blockchain-based system for tracking, reporting, and verification (MRV) of blue carbon assets
- Contributing to secure data handling, transparency, and integrity of environmental records
- Supporting documentation and coordination aspects of the project

Mini Project – Log File Analysis & Anomaly Detection

- Developed a system to analyze logs and identify potential security threats

Hackathons & Technical Activities

- NASA Space Apps Hackathon 2024
- Cinehack Nation Film Hackathon 2025
- Active participation in cybersecurity workshops, hackathons, and technical festivals

Education

B.Tech – Computer Science & Engineering (Cybersecurity)
St. Joseph's College of Engineering & Technology, Palai
2023 – 2027 — CGPA: 7.5

Higher Secondary Education (12th)
St. Aloysius Higher Secondary School, Athirampuzha — 93.5%

SSLC (10th)
St. Mary's Girls High School, Athirampuzha — 90%

Certifications

Java – NPTEL, Networking & Web Technologies, Network Security, Business English, C Programming
