SHAKTHI S

+91 9597039433 | shakthis045@gmail.com | LinkedIn | GitHub | Portfolio | LeetCode

EDUCATION

Bachelor of Engineering: CSE, Sri Ramakrishna Engineering College, Coimbatore (8.32/10) **2022 – 2026**

HSC : Sri Chaitanya Techno School, Coimbatore (89%) **2022**

SSLC: Nandha Central School, Erode (90.4%) **2020**

EXPERIENCE

- **Mobile Application Developer Intern | Tectzo Solutions Private Limited** **Apr 2024 - Sep 2024**
  - Built a **React Native** mobile application for transportation booking with user authentication, supporting seamless coordination between vehicle owners and drivers
  - Improved operational transparency by enabling clear owner–driver communication, reducing fuel theft risks and minimizing manual coordination efforts
- **Full Stack Developer Intern | Maars Solutions** **Jan 2025 - Aug 2025**
  - Developed a full-stack consultancy platform using **React.js** and React Native, enabling users to book appointments and manage online homeopathy consultations
  - Implemented secure communication and personalized treatment workflows with **MongoDB** backend integration, improving efficiency for users and practitioners
- **Full-Stack Engineer Trainee (Java) | Sofzenix IT Solutions LLP** **Dec 2025 – Jan 2026**
  - Developing a full-stack automated project management system using **Spring Boot, REST APIs, React**, and **PostgreSQL** with workflow-driven task automation, role-based access control, and scalable project monitoring

PROJECTS

- Online Consultancy Service Application **| React.js, React Native, Node.js, Express.js, MongoDB**

  Jan 2025 - Aug 2025
  - Developed a **full-stack** online homeopathy consultancy application using React.js, React Native, Node.js, Express.js, and MongoDB as part of an industry project with Maars Solutions
  - Enabled users to book consultations, access personalized treatment plans, and communicate securely with practitioners through a scalable backend architecture

- Transportation Application **|React Native, Node.js, MongoDB** **Apr 2024 - Sep 2024**
  - Developed a **React Native** booking mobile app with user authentication for transportation services
  - Enabled clear communication between Owners and Drivers, preventing petrol/diesel theft

- QuickTask – Full-Stack Task Management Application **| React.js, Express.js, Python, Node.js**

  Sep 2025 - Oct 2025
  - Developed a **MERN full-stack application** with a **Python analytics microservice**, enabling user registration, authentication, task management, and productivity tracking
  - Implemented **task CRUD operations, priority/status tracking, and analytics dashboards**, with JWT-based authentication and REST APIs for seamless user experience

- AI-Powered RFP Management System | **React.js, Node.js, Express.js, PostgreSQL**
  Oct 2025 - Nov 2025
  - Developed a full-stack AI-driven RFP management system using React.js, Node.js, Express, **PostgreSQL**, and OpenAI GPT for automated RFP creation, vendor proposal parsing, and recommendation
  - Enabled procurement managers to send RFPs, parse vendor responses, and compare proposals with **AI-assisted scoring**, reducing manual processing time and errors

TECHNICAL SKILLS

- **Languages:** C/C++, Python, Java, JavaScript, HTML, CSS, SQL
- **Development:** React.js, React Native, Component-Based Architecture, Responsive UI Design
- **Backend:** Node.js, Express.js, Spring Boot, REST API Development, JWT Authentication, Role-Based Access Control, MVC Architecture
- **Database:** MongoDB, PostgreSQL, Schema Design, Query Optimization, ACID Properties
- **DSA-JAVA:** Proficient in problem-solving using Java
- **Coursework:** Data Structures Algorithms, Object Oriented Programming, Operating System, Database Management System, Computer Networks
- **Tools & Platforms:** Git, GitHub, Visual Studio, Android Studio, Postman
- **Others:** Complexity analysis, AI/ML fundamentals, Linux

ONLINE COURSES & CERTIFICATIONS

- Legacy Javascript algorithms and data structures from freecodecamp
- Database and SQL from Infosys Springboard
- Android Studio Tutorial from Great Learning
- Data Structures in C from Great Learning
- Responsible and Safe AI Systems (issued by NPTEL)
- Cyber Security and Privacy(issued by NPTEL)
- Graph Based Algorithms from Great Learning

PERSONAL PROJECTS

- Retail Sales Management System
- User management System
- Personal Portfolio
- Digitized Bonafide Certificate Request System

ACHIEVEMENTS

- Presented a research paper on my project **Child Rights and Protection Application** in National Conference on Advances in Engineering and Technology (NCAET - 24)
- Participated in **Smart India Hackathon** and selected over the college level
- Finalist for Digitized Bonafide Certificate Request System at SREC HACKATHON 1.0
- Solved 200+ DSA problems across LeetCode, HackerRank, and other platforms
