CAREER OBJECTIVE

Results-driven **Python Backend Developer** with **1.9+ years** of IT experience, seeking to leverage expertise in **Python, Django, Flask, REST API** development, backend architecture, database management, authentication, and scalable application design to build secure, high-performance backend systems.

PROFESSIONAL SUMMARY

Python Backend Developer with **1.9+ years** of professional experience in backend application development, RESTful API design, database modeling, **JWT-based authentication**, and **real-time application** features. Hands-on experience with **Django, Flask, SQL and NoSQL databases**,and production support.

TECHNICAL SKILLS

Category	Skills
Programming Language	Python, JavaScript
Frameworks	Django, Flask
Web Technologies	HTML, CSS, React.js, Bootstrap
API Development	RESTful APIs, JSON
Database	MySQL, PostgreSQL, SQLite, MongoDB
Version Control	Git, GitHub
Security	JWT, OAuth
Methodology	Agile
Operating System	Windows

SOFT SKILLS

• Applied analytical skills to resolve backend and API issues

• Collaborated with frontend teams during Agile sprints

• Adapted quickly to changing project requirements

• Managed multiple development tasks efficiently

• Took ownership of assigned backend modules

CERTIFICATIONS

• Python and Artificial Intelligence – Devtown (Applied Python programming)

• Google Drive Clone – Devtown (Web application development)

• Code in Python: Beginner to Advanced – Udemy (Advanced Python concepts)

WORK EXPERIENCE DETAILS

Company Name: O5 IT Solutions, Madurai

Duration: July 2023 – March 2025

Designation: Python Developer

Role / Technology: Python Backend Developer, Django, Flask, REST APIs

PROJECT DETAILS

Project Title
Laufee Web and Mobile Application

Project Duration 1:
August 2023 – January 2024

Client Name
Internal Product

Domain / Industry Type
Social Media Platform

Team Size
6 Members

Worked Methodology
Agile

Project Overview

This project involved the development of a **social media platform** designed for seamless content sharing and **real-time communication**. The application supports **posting images, videos, commenting,** liking, and **live chat** features. The backend system was designed with scalability, security, and performance optimization to handle concurrent users efficiently.

Worked Modules / Areas

• User authentication and authorization (JWT)

• REST API development

• Real-time messaging services

• Database schema design and query tuning

• Backend and frontend integration

Roles and Responsibilities

• Built and maintained **RESTful APIs** using Django and Flask

• Implemented **JWT-based authentication** and access control

• Improved API response time and backend stability

• Integrated backend services with React.js frontend

• Supported testing, debugging, and sprint reviews

• Handled **API validation, error handling**, and **logging mechanisms**

Project Title
E-Cart Application

Project Duration 2:
February 2024 – March 2025

Client Name
Internal Product

Domain / Industry Type
E-Commerce

Team Size
7 Members

Worked Methodology

Agile

Project Overview

This project focused on developing an **e-commerce platform** enabling users to **browse products, manage shopping carts, place orders**, and complete secure online payments. The system was designed to support real-time cart updates, secure transactions, and scalable backend services.

Worked Modules / Areas

• Product catalog and inventory management

• Shopping cart and checkout processing

• Order and transaction management

• Payment gateway integration

• Application security and optimization

Roles and Responsibilities

• Developed backend APIs for **product, cart**, and **order** workflows

• Implemented secure **session handling** and **authentication mechanisms**

• Integrated payment gateways including Razorpay, PayPal, and Stripe

• Improved database performance for transactional operations

• Ensured data security through validation and access control

• Provided production support and bug fixes

EDUCATION DETAILS

Master of Computer Applications (MCA)
Madurai Kamaraj University
Year of Passing: 2025

Bachelor of Computer Science (B.Sc)
The American College, Madurai
Year of Passing: 2023

ACHIEVEMENTS

• Contributed to backend systems supporting multiple active users

• Delivered project features within Agile sprint timelines

• Improved API stability and backend performance

LANGUAGES

• English
• Tamil

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
