Summary

Motivated and detail-oriented Python Developer with a strong foundation in Python programming, data structures, and problem solving. Familiar with frameworks like Django/Flask and basic web development technologies such as HTML, CSS, and JavaScript. Passionate about building efficient applications, learning new technologies, and contributing to innovative software solutions. Seeking an opportunity to apply programming skills and grow as a software developer.

Skills

- **Languages & Tools**: Python, HTML, CSS, JavaScript, Bootstrap, MySQL
- **Frameworks & Technologies:** Django, Django REST API
- **Tools & Software:** VS Code, Sublime Text, Postman, phpMyAdmin, MS Office
- **Operating System:** Windows
- **Soft Skills:** Communication, Problem Solving, Analytical Thinking, Leadership

Education

BE Electronics and Communication Engineering

Rohini College of Engineering & Technology | 2021 | GPA: 74%

HSC & SSLC

Arunachalam Higher Secondary School | HSC: 67.75% | SSLC: 85.2%

Project

Medical Shop Management System

Technologies: Django, Django REST API, MySQL

- Developed a web application to manage medical shop operations. The system allows the user to login and manage medicines including add, edit, delete, and view inventory.

Calculator

Technologies: HTML, CSS, JavaScript

- Created a browser-based calculator that performs arithmetic operations including addition, subtraction, multiplication, and division.

Lottery Draw System

Technologies: HTML, CSS, JavaScript

- Developed a system that randomly selects a lottery winner from a list of ticket numbers stored in the system.

Certificates

- Full Stack Web Development using Python – Mashup Stack
