PROFESSIONAL SUMMARY

Results-driven Software Engineer with 1+ years of professional experience in IT infrastructure management, web development, and cybersecurity. UAE Golden Visa holder with proven expertise in Django, Laravel, and full-stack development. Demonstrated ability to manage complex IT systems, deliver innovative solutions, and collaborate effectively across technical and non-technical teams. Passionate about leveraging AI technologies and cybersecurity principles to build secure, scalable applications.

PROFESSIONAL EXPERIENCE

IT Engineer | Moon Concept Company, Abu Dhabi

September 2024 – September 2025

- Maintained 99.9% system uptime by proactively managing IT infrastructure across multiple departments, ensuring business continuity and operational efficiency
- Implemented security protocols and monitoring systems that enhanced network protection and reduced vulnerability exposure by 40%
- Spearheaded the adoption of new technologies that improved operational workflows, resulting in 25% faster processing times
- Provided tier 2/3 technical support for 50+ end-users, resolving hardware, networking, and software issues with 95% first-contact resolution rate
- Streamlined project documentation workflows and financial approval processes, improving interdepartmental coordination and reducing processing delays by 30%
- Collaborated with cross-functional teams to optimize system performance and troubleshoot complex technical challenges

Software Engineer Intern | Creativa Hub, Sohag

March 2024 – August 2024

- Contributed to full-stack web development projects using modern frameworks and best practices in an agile development environment

- Implemented cybersecurity measures including vulnerability assessments and secure coding practices to protect client applications
- Collaborated with senior developers to debug, test, and optimize code, improving application performance by 20%
- Participated in code reviews and technical discussions, enhancing code quality and team knowledge sharing

---

EDUCATION

Bachelor's Degree in Information Technology
The Egyptian E-Learning University (EELU), Sohag, Egypt
September 2020 – July 2024

Diploma in Information Technology
Sohag University, Sohag, Egypt
2025

TECHNICAL SKILLS

Programming & Development
Python • Java • JavaScript • PHP • ABAP • Django • Laravel • HTML5 • CSS3 • XML

Database & Systems
SQL • Microsoft Access • Linux • Red Hat Enterprise Linux

Cybersecurity & Networking
Ethical Hacking • Network Security • Penetration Testing • Security Auditing • Computer Network Fundamentals

AI & Emerging Technologies
NVIDIA AI Frameworks • Huawei AI Tools • Deep Learning • Machine Learning Fundamentals

Development Tools & Practices
Git/GitHub • Agile Methodologies • System Administration • Cloud Computing

---

KEY PROJECTS

Sentinel Home – Smart Home Security System (Graduation Project)

Technologies: Django, Python, IoT Integration, RESTful APIs

- Architected and developed a comprehensive smart home security system featuring real-time monitoring, automated alerts, and intuitive user interface
- Built scalable backend infrastructure using Django framework with RESTful API architecture supporting multiple concurrent users
- Integrated IoT sensors and security devices with centralized management dashboard
- Implemented secure authentication and authorization mechanisms to protect user data and system access
- **Repository:** github.com/Adryad

CERTIFICATIONS

- **Red Hat System Administration I** – ITI (Mahara-Tech)
- **Computer Network Fundamentals** – ITI (Mahara-Tech)
- **Cybersecurity for Beginners** – ITI (Mahara-Tech)
- **Huawei AI Learning Course** – Huawei Talent Platform
- **NVIDIA Deep Learning Institute** – Multiple AI/ML Courses

---

LANGUAGES

Arabic: Native
English: Advanced (C1 Level – Actively pursuing professional fluency)

ADDITIONAL INFORMATION

- **Visa Status:** UAE Golden Visa Holder (Long-term residency with work authorization)
- **Availability:** Immediate
- **Willing to:** Relocate within UAE, Travel as needed
