SUMMARY

B.A English student with internship as a Software developer, focusing on front end development using React and modern Web Technologies. Worked on real-world projects where AI tools were used to improve development speed, user experience, and automation, gaining practical exposure to industry workflows. Interested in combining strong communication skills with technical abilities to contribute effectively in dynamic, tech-driven roles.

EXPERIENCE

Software Developer, Intern Sep 2025 – Nov 2025
Pregasus Nexus
Developed responsive frontend pages for "Digilancing" and "Digital Billionaire" using modern web technologies. Integrated AI tools and n8n Workflows to automate content generation and lead-capture processes, reducing manual work and improving overall efficiency.

EDUCATION

Bachelor of Arts (BA) in English 2022–2025
University of Madras

TECHNICAL SKILLS

Programming Languages: Python, OOPS.
Web Development: Django, HTML, CSS, JavaScript.
Frameworks: React, Tailwind CSS.
Data Structures and Algorithms: Basic knowledge.
Graphic Design Tools: Adobe Photoshop, Canva.

PROJECTS

Portfolio Website
Developed a personal portfolio website to showcase skills and projects.

- Built using HTML, CSS, and JavaScript, created responsive design for mobile and desktop.
- Github: https://jansijanu1243.github.io/My-PortPholio/

Cafe Website
Developed a responsive and visually appealing website for a cafe business.

- Designed a responsive layout using HTML and CSS, used JavaScript for interactive features like image slider and navigation menu.
- Github: https://jansijanu1243.github.io/Cafe-Night/

Mini Market Website
Developed an e-commerce mini market web application using Django framework with user authentication and product.

- Implemented product listing, shopping cart, and checkout functionalities using Django ORM and views.
- Github Repository: https://github.com/jansijanu1243?tab=repositories
