Summary

B.Tech IT graduate with a strong interest in software development and full stack web development. Experienced in building web applications using the **FULL STACK** specialized in **python Django** and aiming to grow as a **Software Developer**.

Education

COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY, B.Tech in Information Technology CGPA- 7.4 NOV 2022 –APR 2025

Experience

Python Full Stack Developer Intern, Qspiders Kochi (Software Training Institute) May 2025– July 2025

- Learning the fundamentals of python and working on software testing and full stack web development in Django framework.

Technical Skills

- Programming Languages: **Python, C**
- Frontend Technologies: HTML, CSS
- Backend Technologies: **Django, REST APIs**
- Databases: **MySQL, Firebase, PocketBase**
- Cloud : **AWS (EC2, S3, RDS, t3** micro**)**
- Software Testing: **Manual testing, Test case design**
- Version Control: **Git, GitHub**

Projects

VEHICLE DAMAGE DETECTION AND COST ESTIMATION SYSTEM | Python, YOLOv8, OpenCV, Flask, ReactJS, Selenium, Pandas, FPDF, Git

The Vehicle Damage Cost Estimation System uses two YOLOv8 models to detect damaged car parts and assess the severity of the damage from an image. It then calculates the repair cost using real-time part prices and predefined labour charges, and generates a downloadable PDF bill.

IDEA PITCHING STUDENT-MENTOR CONNECTOR | React.js, Node.js, Express.js, MySQL, Postman, REST API ,Tailwind CSS

A web application where students can submit their ideas along with supporting documents . Mentor can review and provide feedback on submitting ideas.
