## PROFFESSIONAL SUMMERY

Results-driven Software Test Engineer with **4+ years** of experience in **Manual, Automation, and API Testing across Banking, Healthcare, ERP, and Telecom domains**. Skilled in **Selenium WebDriver, Playwright, Java, Python, Pytest, TestNG, Maven, Jenkins, REST Assured, Postman, SQL, and Git/GitHub**. Strong expertise in **STLC, SDLC, Agile/Scrum, defect lifecycle management, and CI/CD-oriented testing**. Proven ability to translate business and technical Requirements into scalable **test strategies**, ensuring **data accuracy**, regulatory compliance, and high-quality releases in complex, fast-paced environments.

## PROFESSIONAL SYNOPSIS

- 4+ years of experience in Software Testing and Quality Assurance (QA) across **Banking & Finance (BFSI) and Healthcare domains, including Core Banking, Retail Banking, Payments, Mobile & UPI Payments, Internet Banking, ERP, and Healthcare/Insurance Applications.**
- Strong knowledge of **SDLC, STLC, Agile/Scrum, Waterfall methodologies, test planning, test strategy, test case design, execution, defect tracking, and reporting.**
- Developed cross-browser **UI automation scripts** using **Playwright** and **Selenium WebDriver** with **Java**, and executed **manual functional, integration, system, regression, sanity, smoke, browser compatibility, and database testing.**
- Banking domain expertise: **Payment Gateways, EFT/RTGS/NEFT/IMPS, POS/ATM, Card Payments (Authorization, Batching, Funding, Clearance, Settlement), SEPA & SWIFT Payments, SoftPOS, Mobile & UPI Payments.**
- Healthcare domain expertise: **Claims Processing, Policy Administration, Patient Enrollment, Billing, Reimbursements, Regulatory Compliance (HIPAA).**
- Experienced in **API testing** using **Postman and REST Assured, Web Services testing (SOAP/REST), and Database testing using SQL and UNIX commands.**
- Prepared Traceability Matrices to map business and functional requirements to test cases ensuring 100% test coverage.
- Skilled in **defect lifecycle management**, **bug reporting and tracking using JIRA/HP ALM**, and performing root cause analysis to ensure high-quality releases.
- Proficient in **CI/CD pipeline testing**, automation testing best practices, and delivering quality assurance in fast-paced, regulated environments.

## TECHNICAL PROFICIENCY SKILLS

- **Testing Expertise:**
  SDLC & STLC, Functional Testing, Regression Testing, Sanity Testing, Smoke Testing, GUI Testing, Cross-Browser Testing, UAT, Database Testing, API Testing, Test Planning, Test Strategy
- **Automation & Tools:**
  Playwright, Selenium WebDriver, Git, Jenkins
- **Databases & Scripting:**
  Oracle 9i, Microsoft SQL Server 2021, SQL, UNIX
- **Operating Systems:**
  Windows XP/7/8/10, Linux, Ubuntu
- **Test Management & Defect Tracking:**
  HP ALM (Quality Center), JIRA

## WORK EXPERIENCE

**QA Engineer – Cynosure software solution Pvt Ltd.**

**Jun 2025 – Present**

**QA Engineer with Support – SCS TECH INDIA PVT LTD.**

**Dec 2023 – May 2025**

**QA Engineer – Cynosure software solution Pvt Ltd.**

**Nov 2021 – Dec 2023**

## PROJECTS

**Project: 1**

**Title** : **FinTech**

**Domain** : Banking

**Role** : QA Engineer

**Roles And Responsibilities:**

- Reviewed and analyzed banking business requirements and functional specifications; participated in KT sessions on Core Banking workflows
- Developed reliable, cross-browser UI automation scripts using Playwright for banking applications
- Designed, modified, and maintained test cases aligned with banking processes such as accounts, transactions, payments, and customer onboarding
- Executed smoke testing and escalated critical issues impacting banking operations
- Performed functional, GUI, and regression testing on core banking and digital banking modules
- Executed manual test cases, identified defects, and ensured accurate defect reporting
- Retested fixed defects and conducted regression testing to ensure system stability
- Logged and tracked defects using JIRA
- Actively participated in Agile team meetings, sprint reviews, and daily stand-ups
- Prepared and shared regular test status reports with stakeholders and management

**Project: 2**

**Title** : **HealthCare Policy & Claims Management System**

**Domain Name** : Health Care & Insurance

**Role** : QA Engineer

**Roles And Responsibilities:**

- Led end-to-end software testing for healthcare and insurance applications including policy administration, member enrollment, claims processing, billing, and reimbursements
- Performed manual testing, functional testing, integration testing, system testing, regression testing, and User Acceptance Testing (UAT)
- Developed and maintained test plans, test strategies, test scenarios, test cases, and test execution reports based on business requirements (BRD/FRD)
- Conducted defect identification, defect logging, defect tracking, and defect lifecycle management using JIRA
- Executed backend testing and data validation using SQL queries to ensure data integrity and accuracy
- Ensured healthcare data security, HIPAA compliance, and insurance regulatory standards

- Collaborated with cross-functional teams (Business Analysts, Developers, Product Owners) in Agile/Scrum methodology
- Supported release management, production validation, and post-deployment testing to reduce production defects.

**Project: 3**
**Title : ISWM-PMC**
**Domain :** Enterprise Resource Planning
**Roles And Responsibilities:**

- Review the requirements.
- Understanding the functional documents and thoroughly following KT sessions.
- Designing and Modifying Test Cases using requirement specification.
- Perform smoke test and escalate the issue if any.
- Retesting on Bug's fixed and performed Regression Testing.
- Involved in Functional, GUI and Regression testing.
- Executing the test cases manually and reporting the defects
- Actively Participated in Team meetings.
- Logged defects using QC.
- Reporting the Regular status to the higher authorities in a timely manner.

## EDUCATION

- **B.Tech in Computer Science And Technology**

  Shivaji University ,Kolhapur

- **Diploma in Computer Technology**

## PERSONAL DETAILS

- Date of Birth: 10-Sep-1993
- Languages: English, Hindi, Marathi
- Address: Degaon, N. Solapur, Solapur

## DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge.
