- **Soft Skills:** Problem Solving, Teamwork, Communication, Time Management

Projects

Instagram Clone App

GitHub : github.com/selvakumarskv990-collab/Instagram-Clone-Using-React.git

Tech Stack: React, Bootstrap CSS, Inbuilt JSON DB

- Built a front-end Instagram clone using React with functional UI components and routing.
- Simulated backend behavior using inbuilt JSON storage for posts, Story, and user interactions.
- Designed a responsive UI inspired by Instagram's layout using custom CSS.
- Utilized React Hooks and component-based architecture for efficient state and UI management.

Book Finder Web Application

Live Demo : book-finder-321f8.web.app

Tech Stack: React, Open Library API, Bootstrap CSS, Firebase Hosting

- Developed a web app that allows users to search and discover books using the Open Library API.
- Implemented live search with dynamic results based on user input.
- Deployed the React app on Firebase Hosting for public access.

Certifications

- Python Course (Besant Technology, 2024)
- SQL Course (Simplilearn, 2025) Link
- Data Analytics (NoviTech R&D Private Limited, 2025) Link

Additional Information

- **Languages Known:** Tamil, English
- **Hobbies & Interests:** Playing Cricket and Volleyball
