Kiran Dinesh

React Frontend Developer
Kannur, India | 9567723589 | kiran.dinesh2024@gmail.com | LinkedIn | GitHub | Portfolio

Summary

React Frontend Developer with strong hands-on experience building responsive, component-driven web applications using React.js, JavaScript (ES6+), and Tailwind CSS. Experienced in state management, API integration, and creating clean, scalable UI solutions. Adept at collaborating with backend teams to deliver performant, user-focused interfaces.

Projects

Kannur University Kalolsavam Website | *React, MERN Stack*
- Developed a large-scale, public-facing React application for university-level event and result publishing.
- Built reusable React components and implemented dynamic result rendering from APIs.
- Designed a fully responsive UI optimized for high traffic and multiple device sizes.

E-Commerce Website | *React, Redux Toolkit, MERN Stack*
- Built a React-based e-commerce frontend with product listings, cart management, and checkout flow.
- Implemented global state management using Redux Toolkit for cart and user data.
- Integrated frontend with REST APIs and PayPal sandbox payments.

FinMate – Expense Tracker Application | *Angular, Charts, JWT*
- Developed interactive dashboards with charts for category-wise and monthly expense analysis.
- Built responsive UI components and integrated secure authentication flows.
- Focused on frontend usability and data visualization for improved user experience.

Personal Portfolio Website | *React, Vite, Tailwind CSS*
- Designed and developed a modern, responsive portfolio showcasing projects and skills.
- Optimized UI performance and layout for fast load times and accessibility.

Experience

MEAN Stack Intern Feb 2025 – May 2025
Inmakes Infotech
- Developed frontend modules using Angular with a focus on reusable UI components.
- Integrated REST APIs and improved UI responsiveness and user interaction.

MERN Stack Intern Nov 2024 – Dec 2024
Zoople Technologies
- Built React-based frontend features and integrated them with backend APIs.
- Collaborated with designers and backend developers to improve UI consistency and performance.

Technical Skills

Frontend: React.js, Angular, Next.js (basic), JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
Backend & Databases: Node.js, Express.js, RESTful APIs, JWT Authentication, MongoDB, PostgreSQL (basic)
State Management: Redux Toolkit, Context API
Design & Developer Tools: Figma, Adobe Photoshop, Adobe Illustrator, Git, GitHub, Postman
Stacks: MERN, MEAN

Education

B.Tech in Computer Science and Engineering 2020 – 2024
St. Thomas College of Engineering and Technology *Kannur, India*

Certifications

MERN Stack Internship – Zoople Technologies ; MEAN Stack Internship – Inmakes Infotech ; Python for Data Science – NPTEL ; Android App Development Using Java – Teachnook ; Web Designing Internship – Keltron Knowledge Centre
