OBJECTIVE:

Motivated MCA graduate with a strong foundation in Mathematics and hands-on industry experience as a Process Associate at Tata Consultancy Services. Possess strong analytical, quantitative, and technical skills with a passion for software development. Seeking a Full Stack Developer role to leverage my programming abilities, problem-solving skills, and enthusiasm for building scalable and efficient applications.

SKILLS:

- ReactJs / Redux
- Java/ JavaScript
- Html5 / Css
- MySQL
- Sublime / Visual Studio
- Windows 10

PROFESSIONAL EXPERIENCE:

Process Associate at "Tata Consultancy Services , Chennai" Mar 2022 – Aug 2023

- Completed structured training on Tata Consultancy Services' internal applications, gaining hands-on exposure to real-time corporate processes and workflows.
- Performed accurate transaction observation and classification for a leading global client, Morgan Stanley, ensuring high data quality and compliance with standards.
- Provided end-to-end data verification support by validating financial and operational records to maintain data integrity.
- Collaborated with team members and quality analysts to resolve data discrepancies and improve process accuracy.
- Demonstrated strong attention to detail, analytical ability, and adherence to strict turnaround time (TAT) and client-specific guidelines.

PROJECT I: Internal Web-Based Data Management System

Underwent on-the-job training at ONGC, Neravy, where I worked on developing a web-based data management application using HTML5, CSS, Java, and MySQL to store and manage structured records efficiently. Implemented core Java concepts such as OOPs, JDBC, and exception handling to perform backend operations and database connectivity. Designed user-friendly web pages using responsive HTML and CSS for smooth data entry and viewing. Worked on validating user inputs and maintaining secure data storage using MySQL. Gained strong hands-on experience in the complete software development lifecycle (SDLC) including requirement understanding, development, testing, and deployment.

PROJECT II: React & Redux Based Application (MCA Academic Project)

Developed a dynamic single-page web application as part of the MCA curriculum using ReactJS and Redux for efficient state management. Implemented reusable React components and configured Redux store, actions, and reducers to ensure smooth data flow across the application. Designed a responsive and interactive user interface using HTML5 and CSS. Integrated form handling and real-time UI updates using React hooks. Used Visual Studio Code for development and debugging, ensuring optimized performance and clean code structure.

EDUCATION

Master of Computer Applications (MCA)
E.G.S. Pillay Engineering College, Nagapattinam
CGPA: 9.34 | May 2025

Bachelor of Science in Mathematics
Avvaiyar Government College for Women, Karaikal
CGPA: 8.41 | May 2021

Higher Secondary Education (HSC)
Nirmala Ranee Girls Higher Secondary School, Karaikal
Percentage: 89.33% | May 2018

Secondary School Leaving Certificate (SSLC)
Nirmala Ranee Girls Higher Secondary School, Karaikal
Percentage: 97% | May 2016

CERTIFICATIONS

Diploma in Java Full Stack Development – CSC
Comprehensive training in Java, HTML5, CSS, JavaScript, ReactJS, MySQL, and full-stack application development.

Java Basic Program – Infosys Springboard
Gained strong foundational knowledge of Java programming, including OOP concepts, control structures, and basic application development.

Web Development Fundamentals – IBM SkillsBuild
Learned core web technologies including HTML5, CSS, and basic web design principles for building responsive user interfaces.
