SUHAS S

COMPUTER SCIENCE & ENGINEERING

Contact: 8861118132, Email: suhas88611@gmail.com, Address: Tumkuru

SUMMARY

A computer science graduate with a decent fundamental knowledge and software fundamental knowledge and software engineering practices skilled in java and basics of HTML CSS and java script, aspiringly curious to leverage the skills I have and positively impact the company for its overall development

TECHNICAL SKILLS

Programming Languages	: Basics of C, Core Java and SQL
Operating Systems Worked On	:Windows XP/7/10.
Tools Used	:My SQL, Eclipse, Microsoft Visual studio.
Web Technologies	:HTML, CSS, JavaScript.

PROJECTS

Tech agriculture using IOT

- This project automates the monitoring of plant health using a Smart Plant Monitoring System.
- It integrates various sensors like a Soil Moisture Sensor, Temperature and Humidity Sensor (DHT11) and PIR motion sensor
- NodeMCU and connects to the Blynk 2.0 platform for real-time monitoring and control.

Human following robot using IOT

- This project using Arduino microprocessor as the major component and with the help and combination of ultrasonic sensors and infrared sensors
- The device is very effective in cooperating with the humans and follow them with a relatively higher accurate ranges

EDUCATION

Higher PrimarySchool **2019**

Ankitha primary and high school | 89%

Pre-University **2019-2021**

Sheshadripuram pu clg | 78%

Bachelor of Engineering **2021-2025**

Akshaya institute of Technology | 70%

ADDITIONAL INFORMATION

- **Languages:** English, Kannada, Tamil
- **Certifications:** Infosys Springboard in Fundamentals of C,
- Wadhwani Life Skills (JeevanKaushal)2.0 Rooman Technologies,
- Full stack web development from Varcons technology pvt.ltd ,
- Successfully completed the Cloud Application Development by NCVET
