pathirakali-r-developer2402

Professional Summary

Immediate Joiner. A highly motivated and results-driven Frontend Engineer with **1.7 years of experience** working with Html, CSS, Bootstrap, JavaScript, React.js, and Vue.js. I build fast, responsive, and user-friendly web applications. I have a strong knowledge of component-based architecture, state management, lazy loading, and code splitting to improve performance. I create clean, mobile-friendly UI designs and work smoothly with REST APIs and Web sockets. Recognized for technical ownership, quick adaptability, and delivering production-ready applications under tight timelines. I enjoy creating consistent UI, writing reusable code, and supporting the team with good coding practices.

Education

Thamirabharani Engineering College**,** B.E. in Computer Science and Engineering — Jul 2020– Aug 2024

- CGPA: 8.19/10.0

Experience

Software Engineer, Datayaan Solutions Pvt Ltd – Chennai, Tamil Nadu — July 2024 – January 2026

- Developed and maintained component-based web applications using React.js and Vue.js, resulting in faster page loading and smoother performance.
- Worked on several projects and have 1.4 years of experience specialized in vue.js.
- Integrated REST APIs and real-time features using Axios, Vuex, and Redux to ensure smooth data flow for healthcare, insurance, and pet-clinic platforms.
- Built high-performance dashboards using ag-Grid, Element UI, and Bootstrap Vue with advanced filtering, pagination, and reporting features.
- Worked on e-commerce modules, including event management and blog management features for pet-related services.
- Created a WhatsApp-based CRM system in Vue.js with WebSocket support for real-time chat, message handling, and automated templates, improving stability and reliability.
- Collaborated in Agile teams, supported UI/UX improvements, and ensured WCAG accessibility and pixel-perfect design implementation.
- Awarded **Spot Excellence Awards (Feb 2025 & Nov 2025)** for successfully delivering important modules under tight deadlines.

Projects

Pet Clinic Application

- Designed and developed the **Facility Module** in Vue.js using Bootstrap Vue and Element UI. This included features like room setup, pet check-ins, and detailed reports. All workflows were built using complex APIs, which helped improve the overall efficiency of the system by **35%**.
- Worked on the **Event and Blog Management Module** by using a modular structure. This made it easier to manage events and blogs for pet users, improve performance, and make the system more scalable and easier to maintain.
- Built clean, responsive, and mobile-friendly screens using Vuetify. Focused on accessibility, strong form validation, and smooth teamwork with designers and backend developers to deliver high-quality, production-ready features.

Dental Application

- Enhanced **appointment and referral modules** in Vue.js with **dynamic slot logic**, **intelligent rescheduling**, and **optimized API pagination**, improving performance by **up to 50%** in the e-Appointment module.
- Integrated the promotion module, where users can easily create and manage different types of promotions. Improved the overall flow so promotions work smoothly across the application.
- Architected and deployed a **WhatsApp CRM system** in Vue.js featuring **real-time WebSocket communication**, **template-driven automation**, and **lazy-loaded chat module**

MOPH – Mobile Medical Unit Module

- Developed the **Mobile Medical Unit (MMU) application**, enabling creation and management of medical camps and patient tracking.
- Built features to assign and manage **care teams** (doctors, nurses, staff) for each camp efficiently.
- Designed user-friendly, mobile-ready interfaces with smooth API workflows to streamline MMU operations.
- Delivered **seamless API integration**, **high-performance UI**, and **workflow automation**, earning client recognition for scalability, reliability, and user experience excellence.

Technologies

Languages & Styling: JavaScript (ES6+), HTML5, CSS3, Sass

Frameworks & UI Libraries: React.js, Vue.js, Bootstrap, BootstrapVue, Vuetify

State & Data Management: Redux Toolkit, React Hooks, Vuex, Axios, REST APIs, JSON

Testing & Debugging: Manual and Functional Testing, API Validation, Console and Network Debugging

Soft Skills: Problem-Solving, Technical Mentorship, Time Management, Cross-functional Collaboration, and Clear Communication

Certification

- **Programming with JavaScript** – Meta, Coursera
- **Full Stack with Python** - Guvi
