EDUCATION

Netaji Subhash Engineering College, Kolkata Aug 2021 - Jul 2025
Bachelor Of Technology, Information Technology
➢**YGPA: 7.68**

SKILLS

➢ C / C++, JavaScript, TypeScript
➢ React JS, Next JS, Redux-toolkit, Context-API, i18next
➢ Tailwind CSS, shadcn/ui, Framer-motion, Styled-component
➢ Node JS, Express.JS, Electron.Js, MongoDB, Mongoose, PostgreSQL
➢ Data Structure & Algorithm, Generative AI, AI-SDK
➢ GIT & GitHub, vercel, GitHub-Action, CI/CD, Docker, AWS

PROFILES

➢ GitHub
➢ Codeforces
➢ GeeksforGeeks

WORK EXPERIENCE - (1.2 Years)

➢ **Software Developer - 1 at InterviewCall Club** Aug 2025 - Nov 2025

• Worked on two core products **WorkR**, a job recruitment platform and **Lancer**, an education platform using **React, Next.js, TypeScript, Redux, Node.js, PostgreSQL and MongoDB**.

• Maintained **production-grade codebase**, resolving **91+ critical bugs** while **refactoring and optimizing the application architecture** through reusable, modular components, reducing code duplication and shrinking the codebase from **2900+ lines to 527 lines**, resulting in improved **system stability and performance.**

• Developed the **Lancer platform from scratch**, contributing to **frontend UI**, **backend API development** and **database integration** for the product launch.

➢ **Software Developer Intern at Wylo Networks** Mar 2025 - Aug 2025

• Implemented **multi-language support feature using i18n** and a **platform-wide dark mode**, enabling global accessibility and improved user experience.

• Optimized rendering logic and refactored the codebase, improved Redux store structure and resolved **68+ critical bugs**, enhancing **application performance,** long-term **maintainability, platform stability** and **user experience**.
[Tech Stack : React JS, Redux, JavaScript, Styled-component, CSS, i18next]

➢ **Frontend Developer Intern at CS FOR ALL (Ed-Tech)** Feb 2024 - Jul 2024

• Developed course purchase platform, leveraging **Next JS, Typescript, React**. Integrated **AI-powered** features using **Generative AI API**, enabling students to receive **customized recommendations** based on query prompts. Developed small features like **Quiz application** for 3000+ students to participate in weekly quiz sessions. Designed a customer **Feedback Form** to gather valuable insights, contributing to product development

• Collaborated with design and backend teams to transform **Figma designs** into responsive and functional components, ensuring seamless API integration

PROJECTS

➢ **Scalable Chat-App (React, Node, Socket, MongoDB, Docker, AWS)** | **Live** | **GitHub**

• Built a **scalable microservices-based real-time chat application** using **Socket.IO**. Designed a **secure OTP-based** authentication system with **JWT**, leveraging **RabbitMQ** for asynchronous OTP delivery and **Redis** for **time-bound OTP validation** and **API rate limiting** to prevent abuse

• Containerized all backend services using **Docker**, orchestrated multi-service workflows with **Docker Compose** and deployed the application on **Amazon Web Services AWS-EC2**

➢ **Custom AI-Chatbot (Next JS, Typescript, Gemini, Vercel-AI-SDK)** | **Live** | **GitHub**

• Developed a fully responsive **AI chatbot** using **Next.js Tailwind CSS, shadcn/ui, Google Gemini API** and **Vercel-AI-SDK** to streamline **customer support automation** for businesses. Designed to assist users by answering queries related to products, services, pricing and features while intelligently **filtering** out **unrelated questions**.

➢ **Fullstack Admin-Dashboard (React, Node, Express, MongoDB, Render)** | **Live** | **GitHub**

• Developed a fully responsive admin dashboard using **React**, **Node.js**, **Express.js** and **MongoDB**. Implemented **JWT authentication** with OTP-based **email verification**, **password reset**. Integrated interactive analytics with **React Recharts**, enabling dynamic data visualization through interactive charts and animations. Included **search functionality** for products and users. Added features like **email sending**, **pagination** for vendor details and **Lazy Loading** for **code optimization**.
