EDUCATION

MASTER OF COMPUTER APPLICATION

AMRITA VISHWA VIDYAPEETHAM AMRITA SCHOOL OF ENGINEERING ,AMRITAPURI CAMPUS

2022 - 2024 Vallikkavu,India

CGPA - 8.49

BACHELOR OF COMPUTER APPLICATION

AMRITA VISHWA VIDYAPEETHAM AMRITA SCHOOL OF ENGINEERING ,AMRITAPURI CAMPUS

2019 - 2022 Vallikkavu,India

CGPA - 8.94

12-TH STANDARD

STRATFORD PUBLIC SCHOOL - CBSE

April 2018 Karunagappally,India

CGPA - 6.0

HIGH SCHOOL

SREE NARAYANA CENTRAL SCHOOL - CBSE

April 2015 Karunagappally,India

CGPA 9.0

EXPERIENCE

Software Developer

Geckolyst Solutions Private Limited

June 2024 - Present Eranakulam

- Developed dynamic, responsive web applications using ReScript (frontend) and Ruby on Rails (backend).
- Managed backend logic including model associations, validations, and background jobs with ActiveRecord and Sidekiq.
- Performed software testing including unit, integration, and functional tests using RSpec.
- Designed and implemented a URL Shortener application with user authentication, analytics, and report generation using Ruby on Rails.

PROJECTS

GENERAL ADMINISTRATION AND MANAGEMENT SYSTEM IN JAVA PROGRAMMING ,2021

- Designed and implemented a management system in Java to automate operations and personnel workflows.

UPPERBOUND FOR SORTING PERMUTATION USING TRANSPOSITION TREE IN PYTHON, 2021-2022

- Learn the existing approximate Algorithms and compare them for sorting permutations using Transpositions.
- Implementation of Algorithm to find the upper bound of sorting permutation on Transposition Tree.

DEVELOP A WEB APPLICATION IN PYTHON ,2021

- Developed a lightweight web application with Python and HTML for student data entry and record management.

REAL-TIME RULE-BASED SPAM DETECTION WITH AN EDGE DEVICE FOR IOTA TANGLE,2023-2024

- The project introduces a spam detection system specifically designed for the IOTA Tangle, a distributed ledger based on Directed Acyclic Graph (DAG) technology.
- The proposed solution involves using a rule-based approach on an edge device like a Raspberry Pi to filter out spam transactions originating from devices.
