Objective

To seek a position in an organization that provides continuous growth of knowledge and enhancement of skills while contributing to organizational goals. Self-motivated professional with strong communication skills and the ability to learn quickly and work effectively in a team environment.

Professional Experience

Full Stack Python Developer Intern | MashupStack

April 2025 – November 2025 (7 months)

- Developed and tested full stack web applications using Python (Django), HTML, CSS, JavaScript, Bootstrap, and React.js.
- Built projects including a URL Shortener and Cooking Recipe Platform with user authentication, serializers, modules as Add Cart, Invoice details features.

Software Engineer | Allianz Technology

Oct 2022 – Oct 2024

- Designed, developed, and optimized PL/SQL procedures, functions, triggers, and packages in Oracle 12c/12g environments.
- Worked on Oracle Forms Builder for UI design and backend integration.
- Automated data extraction and Excel report generation using PL/SQL scripts.

Technical Skills

Programming Languages: Python, Java, JavaScript, SQL, Web API.

Web Development: HTML5, CSS3, Bootstrap, React.js, Django

Frameworks: Django REST Framework (DRF)Postman, React Hooks, Redux (Basics)

Databases: Oracle Database, MySQL, DB browser SQLite

Tools: VS Code, TOAD, Putty, WinSCP, SVN, Oracle Forms Builder, Jira, Git & GitHub

Methodologies: Agile (Scrum), Kanban

Cloud Tool: Azure DevOps – CI/CD Basics

Soft Skills

- Communication Skills
- Teamwork
- Time Management
- Adaptable to new technologies

Project Details

Full Stack Python Developer Intern – MashupStack

- Projects: URL Shortener | Cooking Recipe Platform
- Developed a React and **Django**-based URL Shortener enabling users to sign up, log in, and manage shortened URLs (limit: 5 per user).
- Implemented search, pagination, edit/delete, and session-based authentication for improved usability.
- Built a Django-React based Cooking Recipe Platform allowing users and admin to log, add, view, edit, and delete recipes.
- Worked with **MySQL** database, and responsive UI components to ensure full-stack functionality.
- Implemented form validations, API integrations, and state management in React applications.

Software Engineer – Allianz Technology

- Project: TIA Insurance Application
- Developed and optimized **PL/SQL** procedures, triggers, and functions to streamline insurance policy and claims workflows.
- Enhanced database performance through query tuning, indexing, and optimization.
- Integrated Oracle Forms for smooth interaction between front-end and backend systems.
- Collaborated in **Agile/Kanban** environments, contributing to sprint planning, reviews, and production support.
- Participated actively in Agile ceremonies including daily stand-ups, **sprint** planning, reviews, and retrospectives.
- Supported **CI/CD pipeline** configurations and deployments using **Azure DevOps**.

Education

- B.Tech in Computer Science and Engineering – Mohandas College of Engineering and Technology, 2016
- Higher Secondary – Holy Angel's Convent Higher Secondary School, 2012

Certifications

- Full Stack Python Developer – Intern Mashup Stack Training Institute
  LinkedIn Learning – Oracle Database 12c: Basic SQL
- Java Training Course – CDAC
