Leya Pallan

Full Stack Software Developer

leyapallan1999@gmail.com | +91 6238061643 | Leya Pallan | Thrissur, India

Summary

Motivated Full Stack Software Developer with over 2 years of experience in designing, developing, and deploying scalable software solutions using .NET technologies. Proven expertise in building ERP systems, integrating multi-platform delivery APIs, and optimizing database performance with MSSQL and MySQL. Skilled in collaborating with cross-functional teams to deliver robust, high-performance applications and enhance operational efficiency. Strong background in bug fixing, UI enhancement, and facilitating real-time deployment in Agile environments. Seeking to leverage technical skills and problem-solving abilities to drive impactful software projects.

Professional Experience

Jr. Dot Net Software Developer, Cypheron Technologies 2023 – 2025

- Developed and deployed a comprehensive ERP with POS, KOT, and inventory management, improving response times by 15% and uptime for 400+ clients.
- Implemented multi-country tax compliance and multi-language support, expanding global reach by 40%.
- Streamlined order management integrating multiple delivery APIs, increasing client satisfaction.
- Revamped legacy architecture for 30% performance improvement; reduced downtime by 20% through proactive DB management (MSSQL, MySQL).
- Led a team of 2 .NET developers during deployment, delivering real-time bug fixes and promoting error-free transitions.
- Integrated delivery platforms (Swiggy, Zomato, Uber Eats) into unified system using ASP.NET.
- Enhanced shipment software by fixing bugs and adding new UI features using JavaScript, jQuery, HTML, and CSS.

Internships

- Completed internship on Python conducted at Keltron.
- Completed internship on Hybrid Mobile App Development at Adsonlive.
- Completed 3-month .Net internship at Cypheron Technologies.
- Completed python internship at Keltron.

Education

B-Tech Computer Science, Jyothi Engineering College 2018 – 2022
Bachelor of Technology, APJ Abdul Kalam University

Higher Secondary, Holy Family CGHSS 2016 – 2018

Secondary, Sacred Heart CGHSS 2016

Technical Skills

Backend: .NET, ASP.NET, .NET Core, RESTful APIs, C#, Microsoft SQL Server, MySQL, Firebase
Frontend: HTML/CSS, JavaScript, jQuery, WPF
Architectures & Patterns: MVVM, MVC
Languages: C#, C++, Python, C, Java, Dart
Tools & Platforms: Git, DevExpress, Postman, Jira

Projects

- **Bibliogram**: Website to sell pre-owned items with features to sort books by popularity and search functionality.
- **Home Services and Assistant App**: Android app (Android Studio) for finding daily workers.

Certifications & Accomplishments

- Course certification: Introduction to Augmented Reality and AR Core
- Microsoft Student Partners certification: Introduction to Azure, ML, and Cognitive Services workshop
- Certification from Google AI: Explore Machine Learning
- Architected and executed API integrations across delivery platforms, billing systems, and servers.
- Centralized configuration management through a unified settings panel, increasing operational efficiency by 70%.
- Enhanced container shipment software fixing bugs and adding UI features (JavaScript, HTML, CSS).

Soft Skills

Collaboration and Teamwork, Problem-solving with Growth Mindset, Resilience, Time Management
