SUMMARY

Motivated and detail-oriented Python Full Stack Developer with hands-on experience in developing web applications using Django, HTML, CSS, JavaScript, and MySQL. Skilled in designing responsive user interfaces, implementing backend logic, and collaborating in team-driven environments. Quick learner with strong problem-solving abilities.

TECHNICAL SKILLS

- **Backend Technologies:** Django, Flask, Python
- **Frontend Technologies:** React.js (v18+), JavaScript (ES6+),
- **Styling & UI Frameworks:** Tailwind CSS, Bootstrap 5, CSS3
- **Database:** PostgreSQL, MySQL
- **Version Control:** Git, GitHub,Figma, Postman
- **Web Communication:** REST APIs

EXPERIENCE

2025 (Present)
DRUV 360°

React Frontend Developer
- Built and maintained responsive React applications using modern JavaScript.
- Integrated APIs and managed dynamic data.
- Collaborated with designers and developers to deliver high-quality UI.
- Debugged issues and followed best coding practices.

09/2023 - 12/2024
Quest Innovative Solutions, Calicut

PYTHON FULLSTACK DEVELOPER INTERN
- Gained experience as a Python Full Stack Web developer.
- Used Django Framework for developing web applications to implement the ModelView-Controller (MVC) architecture.
- Worked with HTML/HTML5, CSS/CSS3, and integrated responsive designs using Bootstrap.
- Gained experience in version control using GIT.

EDUCATION

2020 - 2023
Calicut University

B.Sc - Electronics
AWH Special College, Calicut, Kallai

2018 - 2020
Higher Secondary

SN Trust HSS, Chelannur, Kozhikode

CERTIFICATIONS

- React.js web development – DRUV 360°
- Python Full stack development - Quest Innovative Solutions

PROJECT

PORTFOLIO WEBSITE

- Successfully created a responsive Portfolio website showcasing my projects and skills. Implemented technologies such as HTML 5, CSS, Bootstrap 5 and JavaScript for a modern and adaptable design.
  Github: https://ayushvishnu.github.io/Ayush-s-Portfolio/

VEHICLE RENT

- I developed a vehicle rental website using HTML, CSS, Bootstrap, and JavaScript. This project involved the following features: Enable users to log in and participate in various activities securely.
- Allow users to browse vehicles, select options, and make reservation. Design interactive interface layouts using the Bootstrap framework.

SCHOOL MANAGEMENT SYSTEM

- Developed a School Management System in both Django and Flask frameworks to manage students and teachers, featuring secure login views for admins, students, and teachers. This mini project included functionalities for registering and managing student and teacher profiles, ensuring rolebased access and control.

FOOD-ZONE RESTAURANT WEB APPLICATION

- Developed a responsive food/restaurant web application using React.js and Tailwind CSS.
- Created reusable and modular React components for better maintainability.
- Designed modern, mobile-first UI using Tailwind utility classes.
- Deployed the project on Vercel with production-ready build.
  Git Hub: https://food-zone-muzam1ml4-ayushs-projects-70820ba6.vercel.app/

IOT-Based Smart Alert System for Drowsy Driver and Accident Prevention

- It has been developed using such a technique in which the Video Stream Processing (VSP) is analysed by eye blink concept through the Eye Aspect Ratio (EAR) and Euclidean distance of the eye Using Raspberry pi

SKILLS

- Communication
- Teamwork
- Critical thinking
- Time management
- Leadership
- Adaptability

LANGUAGES

- English (Proficient)
- Hindi (Conversational)
- Malayalam (Native)
