PROFESSIONAL SUMMARY

QA Automation Lead with 13+ years of experience in Manual and Automation Testing across Banking (BFSI), Logistics, Web, and Mobile applications. Strong expertise in **Selenium WebDriver, Java, TestNG, Cucumber (BDD), RestAssured/Postman, API Automation**, WebServices and CI/CD integration using Jenkins. Proven ability in **Test Automation Framework,Test Strategy, Defect Management, Agile/Scrum delivery**, and mentoring QA teams. Known for improving regression efficiency, automation coverage, and release quality in large-scale enterprise environments.

CORE SKILLS

- QA Automation & Manual Testing
- Automation Framework Design
- Test Strategy & Test Planning
- Defect Management & Quality Engineering
- Agile / Scrum / STLC
- Team Mentoring & Leadership
- API & UI Automation
- CI/CD Integration
- Automation Strategy & Governance ,Team Mentoring ,Code Reviews ,Cross-Functional Stakeholder Collaboration.
- Quality Engineering & Testing, Functional, Regression, Smoke, Sanity, Integration, System Testing

TOOLS & TECHNOLOGIES

- **Automation:** Selenium WebDriver, TestNG, Cucumber (BDD), RestAssured, Karate
- **Programming & Scripting:** Java
- **CI/CD & SCM:** Jenkins, Bitbucket, GitHub
- **API Testing:** Postman, Insomnia,JSON

- **Test Management & Defects:** JIRA,Confluence, Testrail
- **Databases:** SQL (basic queries)
- **Cloud & Platforms:** Web, Mobile (Android & iOS), Cloud-based Applications
- **Other Tools:** BrowserStack, Charles Proxy, IntelliJ IDE

PROFESSIONAL EXPERIENCE

Synechron Technology – Pune

Domain : HSBC – Core Banking (BFSI)

QA Automation Lead | *May 2024 – Dec 2025* Led Test Automation for large-scale, multi-country Core Banking and Credit Origination platforms.

- Analyzed real-time project requirements to identify testable features and automation opportunities.
- Targeted high-value manual test cases, focusing on critical areas and repetitive workflow
- Developed and preserved automated UI and API test suites leveraging Selenium WebDriver, Java, Karate and BDD Cucumber
- Executed functional and regression test suites, improved **Test Execution Efficiency by 20%+**
- Debugged results, and reported defects.
- Integrated suites with Jenkins CI/CD pipelines for scheduled and on-demand runs
- Validated API orchestration layers and backend workflows using Postman verification
- Collaborated with Developers, QA, DevOps , StakeHolder and BAs teams to improve overall software quality.
- Actively participated in Sprint Planning, Test Estimation, Release Sign-off, and UAT support

Tools & Technologies

- Java, Selenium WebDriver, Cucumber, Karate Framework, Insomnia/Postman, Rest API Testing, BDD Automation Framework, GitHub, JSON .Oracle OBCFPM

Inxeption Technology – USA (Remote)

Domain : Shipping/Logistics/Fright Forwarding

Senior QA Automation Engineer | *Mar 2022 – May 2024*

- Delivered Manual and Automation Testing solutions for Logistics & Supply Chain platforms (LTL, FTL, Parcel, International)

- Examined real-time project requirements to identify testable features and automation scope.
- Ordered the high priority manual test cases, focusing on bug prone areas.
- Implemented scalable UI and API automation solutions using Selenium WebDriver, Java, RestAssured and Cucumber.
- Enhanced and maintained scalable automation functional and regression test suites with clean, reusable test scripts as part of the QA process.
- Filtered results, and reported defects, this **reduced manual testing by 30%**
- In later stage, reduced regression test execution time by **2 hours per cycle** and increasing **test coverage by 30%.**
- Collaborated with cross-functional teams in Agile environment to ensure on-time releases

Tools & Technologies

- Java, Selenium WebDriver, Cucumber, RestAssured, Postman, Rest API Testing, BDD Automation Framework, BitBucket, JSON.

Blueconch / Xpansion/UST-Global – Pune

Domain : Weather Forecasting

Senior QA Engineer (Mobile-Web Automation & Manual) | *Feb 2021 – Mar 2022*

- Conducted functional and regression testing of The Weather Channel Android and iOS mobile applications a global user base
- Performed Mobile UI, API, Regression, and Exploratory testing
- Validated Mobile's backend APIs using Charles Proxy for network and API traffic validation
- Evaluated project requirements in real time to identify testable features and determine automation opportunities.
- Identified, selected and converted high-value manual test cases into automated scripts focused on critical and frequent user flows.
- Developed and scaled up end-to-end UI Mobile and UI automation frameworks using Selenium WebDriver, Java led to authored clean, reusable, and maintainable test scripts.
- In later stage , optimized regression test execution time by **3 hours** per cycle and increasing test coverage **by 20%.**
- Configured test environments and test data to support reliable automation execution.
- Verified results and reported findings.
- Logged, tracked, and validated defects using defect management tools, collaborating closely with developers for timely resolution.
- Maintained existing automation scripts, generated detailed test reports, and communicated quality metrics to stakeholders.
- Collaborated cross-functionally with developers, QA analysts, and DevOps teams to improve overall product quality.

Tools & Technologies

- Java, Selenium WebDriver, Data Driven,Charles Proxy,Mobile API Testing, Android/iOS

Mundrisoft Solutions – Pune

Domain : E-commerce/E-Learning

QA Engineer | *Aug 2020 – Feb 2021*

- Tested E-Learning SaaS platform with multiple integrated systems (Salesforce, NetSuite, SABA)
- Validated Angular-based frontend and backend integrations
- Performed Functional, Regression, and Integration testing
- Collaborated with Dev and Product teams for defect triage and resolution

Tools & Technologies

- Quality Engineering & Testing, Functional, Regression, Smoke, Sanity, Integration, System Testing, Webservices/MircoServices testing

Sapience Analytics – Pune

Domain : Employee Monitoring Tool

Senior QA Engineer | *Jun 2014 – May 2020*

- Worked on Enterprise Analytics & Productivity SaaS product
- Led regression testing cycles and mentored junior QA members
- Improved test coverage and defect detection through structured test planning

Tools & Technologies

- Quality Engineering & Testing, Functional, Regression, Smoke, Sanity, Integration, System Testing,Mobile Testing,Client server Application Testing, Rest API testing, JSON

Lionbridge Technologies – Mumbai

Senior Testing Engineer (Manual) | *Oct 2011 – Apr 2014*

Domain : E-learning,

- Delivered Manual Testing for enterprise applications in **Education, BI, and Translation domains**
- Actively contributed to Agile projects involving JavaScript and Web applications

Tools & Technologies

- Quality Engineering & Testing, Functional, Regression, Smoke, Sanity, Integration, System Testing,Web Application Testing

EDUCATION

Master of Computer Applications (MCA) – Computer Science
Pune University | 2011
