PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications using React and Django REST Framework. Familiar with developing REST APIs and implementing JWT-based authentication. Open to junior and associate full stack developer roles.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), React, React Router, Context API, Tailwind CSS
Backend: Django REST Framework, REST APIs, JWT Authentication
Tools: Git, GitHub, Postman
Familiar With: Redux, Stripe API, Role-Based Access Control (RBAC)

EXPERIENCE / PROJECTS

Doctor Appointment Booking System

Tech Stack: React, Django REST Framework, JWT, Tailwind CSS

• Developed a full-stack doctor appointment booking application supporting patient and admin user roles.
• Implemented JWT-based authentication to secure REST API endpoints.
• Built role-based access control to manage permissions for different user types.
• Created an admin interface to manage doctors, appointments, and users.

E-Commerce Web Application

Tech Stack: React, Tailwind CSS, Context API

• Developed a responsive frontend e-commerce interface using React and Tailwind CSS.
• Implemented client-side state management using Context API for cart and product data.
• Built cart functionality including add, remove, and quantity update features.
• Used browser localStorage to persist cart data across sessions.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

MES Institute of Technology and Management | 2021 – 2025
