THOUFEEQ RAHAMAN F

AI & DATA SCIENCE STUDENT | ASPIRING DATA ANALYST | FULL STACK DEVELOPER

thoufeeqrahmanf45@gmail.com | +91 6369744876

EXECUTIVE SUMMARY

Motivated Artificial Intelligence and Data Science student with foundational internship and project exposure in Python and data analytics. Quick learner with strong analytical and problem-solving skills, eager to learn new technologies and contribute effectively in a trainee role.

TECHNICAL SKILLS

PYTHON	JAVASCRIPT(BASICS)	WEB DESIGN
SQL	EXCEL	DATABASE INTEGRATION
HTML & CSS	POWER BI	PROBLEM SOLVING

INTERNSHIP

Python Full Stack Developer Intern, iLife Technologies **MARCH 2024**

- Completed hands-on training in Python Full Stack Development, working with core Python, front-end and back-end technologies.
- Developed web applications using HTML, CSS, JavaScript, with database integration and team-based project experience.

Data Analyst Intern, VDart Technologies Pvt. Ltd. **JULY 2025**

- Gained hands-on experience in data analysis using Python and SQL, including data collection, cleaning, and analysis of large datasets.
- Created reports and dashboards using Excel/Power BI to identify trends and deliver actionable insights in collaboration with senior analysts.

EDUCATION

B.Tech – Artificial Intelligence and Data Science **2022 – 2026**

M.A.M. College of Engineering and Technology, Trichy
CGPA: 7.5

Class XII (CBSE)
Cauvery Global Senior Secondary School | 2021-2022

Class X (CBSE)
Rajaji Vidyalaya School | 2019-2020

PROJECTS

Smart Helmet Using Arduino
Developed an alcohol-detection safety system using Arduino and MQ3 sensor to prevent vehicle ignition, presented at IISc Bangalore finals.

Personal Web Design Project
Designed a responsive website using HTML and CSS with interactive sections linked to social media, focusing on clean UI and usability.
