AKHIL RAJ

Software Developer

Kottayam , Kerala — akhilrajchelamattam@gmail.com — LinkedIn — Github— —+91 8590286663

PROFESSIONAL SUMMARY

Python Django Software Engineer with over 2 years of experience in developing, deploying, and maintaining scalable web applications. Strong expertise in RESTful API development, AWS cloud deployment, Linux server environments, and front-end technologies including HTML, CSS, and JavaScript. Experienced in Agile/Scrum methodologies and the full Software Development Life Cycle (SDLC).

PROFESSIONAL EXPERIENCE

Freelance Software Developer — May 2025 – November 2025

- Working as a freelance software developer, assisting final-year undergraduate students with the design, development, and completion of academic software projects.
- Guided students through the full project lifecycle, including problem definition, system design, implementation, testing, documentation, and final presentation.
- Developed and customized project solutions using **Python**, **Django**, **PHP**, and **MySQL** based on academic requirements.
- Provided technical mentoring on coding best practices, debugging techniques, and software architecture concepts.
- Served as a part-time tutor at a private training center, delivering hands-on instruction in **Python**, **Web Development**, and fundamental computer science concepts.
- Assisted students in understanding core topics such as algorithms, RESTful APIs, database design, and project-based learning.

Software Engineer – Cabal Technology — Nov 2023 – May 2025

- Developed, enhanced, and maintained scalable web applications using **Python (Django)** and **PHP** in production environments.
- Designed and implemented **RESTful APIs** to support secure and efficient backend services.
- Integrated and optimized **MySQL** and **PostgreSQL** databases to improve application performance.
- Built responsive and reusable UI components using **HTML5, CSS3, and JavaScript**.
- Deployed, configured, and monitored applications on **AWS (EC2, S3)** and **Linux** servers.
- Followed **SDLC best practices** including requirements analysis, development, testing, deployment, and maintenance.
- Collaborated with cross-functional teams in **Agile/Scrum** sprints.
- Debugged and resolved production issues, improving system reliability.
- Conducted code reviews and applied clean coding standards.

Software Engineer Intern – Nyest Ventures — 2022 – 2023

- Developed and enhanced front-end components to improve usability and performance.
- Assisted in backend development using **.NET** and **C#** following enterprise standards.
- Refactored legacy code to improve performance and maintainability.
- Collaborated with senior developers to implement new features and fix bugs.
- Gained hands-on experience with **Git**, debugging, and technical documentation.
- Participated in **Agile ceremonies** including stand-ups and sprint reviews.

TECHNICAL SKILLS

Primary Language	Python
Secondary Languages	PHP, Java, C#, Dart
Backend Frameworks	Django, FastAPI, REST APIs, Laravel, Spring, .NET
Frontend Technologies	HTML5, CSS3, JavaScript, React.js, Next.js, Angular, Bootstrap
Mobile Development	Flutter
Databases	MySQL, PostgreSQL
Cloud & DevOps	AWS (EC2, S3), Git, GitHub
Operating Systems	Linux (CentOS, AlmaLinux)
Core Concepts	SDLC, Agile, RESTful Services, Debugging, Deployment

EDUCATION

Master of Computer Applications (MCA) **2022**

STAS Pullarikunnu, Kottayam

Bachelor of Computer Applications (BCA) **2019**

PGRM SN College, Changanacherry
