SUMMARY

Front End Developer with 2 years of hands-on experience in developing responsive web applications using HTML, CSS and Angular. API integration, and performance optimization. Skilled in debugging and code optimization

WORK EXPERIENCE

P9 Technologies Pvt Ltd 2024 - PRESENT

Software Engineer

- Designed, developed, and maintained responsive Angular applications using Angular (v16+), TypeScript, HTML5, and CSS3.
- Built reusable Angular components, services, and modules following best practices and modular architecture.
- Integrated RESTful APIs using Angular HttpClient, handling authentication flows including JWT-based authorization
- Participated in requirement analysis, UI design discussions, and sprint planning.
- Provided production support & managed code using SVN with proper branching & merging.
- Built and integrated RESTful APIs with ASP.NET Web API & Web Form .

EDUCATION

University College of Engineering, Panruti - UCEP

BE-Computer Science & Engineering (2019 - 2023)

Per : 70%

SKILLS

- HTML
- CSS
- Angular (v16)

PROJECTS

Coke Catalog

- Developed a web-based product catalog application to manage and display Coca-Cola product information for internal users and distributors.
- Enabled users to browse products, view detailed specifications, pricing, and availability through an intuitive interface
- Implemented user authentication and registration flows with access control for internal users and distributors.
- Ensured secure access and data handling with JWT-based authentication and role-based UI flows.
- Developed dynamic product grids with pagination to handle large product volumes efficiently.
- Implemented error handling and user-friendly notifications for API failures and validation errors.
- Participated in requirement discussions, sprint planning, and daily stand-ups.

SOFT SKILLS

- Team Collaboration
- Time Management
- Client-Focused Mindset

TOOLS

- VS Code
- Postman
- SVN & GitHub
