FRONTEND DEVELOPER | DevSecOps

Front-End Developer with 4 years of experience in ReactJS, JavaScript, and Redux Toolkit, specializing in building scalable, high-performance, and component-driven web applications. Proficient in HTML5, CSS3, React Hooks, responsive UI development, and reusable component architecture. Experienced in state management, API integration, real-time data rendering, and performance optimization techniques such as memoization, code splitting, and lazy loading. Hands-on experience with DevSecOps workflows, manual deployment processes, debugging, production support, and front-end maintenance. Strong understanding of modern front-end architecture, version control (Git), and best coding practices.

PROFESSIONAL EXPERIENCE

Jan 2022 - Present

TATA CONSULTANCY SERVICES

FRONTEND DEVELOPER | DevSecOps

- Developed dynamic, component-based user interfaces (UIs) using ReactJS, Redux Toolkit, and createAsyncThunk, implementing lazy loading to enhance performance and load times.
- Utilized React Router to enable seamless navigation and improve component rendering efficiency across single-page applications
- Designed and implemented responsive, mobile-friendly layouts using HTML5, CSS3, JavaScript ES6+, and React Hooks for improved user engagement and accessibility.
- Integrated RESTful APIs and backend services to deliver real-time, data-driven functionalities within the application.
- Optimized React component rendering and state management to minimize re-renders and enhance overall application performance.
- Conducted performance and load testing using Apache JMeter to validate application stability, scalability, and responsiveness under various conditions.
- Collaborated with backend and DevOps teams to streamline development, testing, and release management workflows, improving delivery efficiency.
- Leveraged WinSCP and PuTTY for secure file transfers, server access, and environment validation during deployment cycles.

KEY COMPETENCIES

- **Programming Languages:** JavaScript
- **Frontend Technologies:** ReactJS (Library), Redux Toolkit (State Management)
- **Web Technologies:** HTML5, CSS3, Tailwind CSS
- **Database:** PostgreSQL
- **Tools & DevSecOps:** Git, Jenkins, Postman, WinSCP, PuTTY
- **Cloud Platforms:** Microsoft Azure
- **Methodologies:** Agile (Scrum)
- **Operating Systems:** Windows, Linux
- **Security & Access Management:** PAM, CyberArk
- **Testing Tool:** JMeter

EDUCATION AND QUALIFICATION

- **Bachelor of Engineering – Mechanical**
  RTMNU | **CGPA: 8.67** | Graduated: 2021
