KISHORE K

Junior Software Developer at Inforios Software Technologies

9384383716 ukishore89@gmail.com Linkedin

Professional Summary

Full-Stack Developer with 1+ year of experience building scalable web applications using React.js, TypeScript, FastAPI, and PostgreSQL. Skilled in developing secure REST/GraphQL APIs, responsive user interfaces, and efficient database systems. Strong problem-solver with hands-on experience delivering reliable, production-ready applications.

Skills

Frontend : React.js, Typescript, Redux-Saga, HTML/CSS, Bootstrap.

Backend: FastAPI, REST APIs, GraphQL

Database: PostgreSQL

Tools: VS Code, Pycharm, Postman

Experience

Junior Software Developer – Inforios Software Technologies — Sept, 2024 – Present

Roles & Responsibilities

- Developed and optimized REST & GraphQL APIs ensuring security and performance.
- Worked with React.js,FastAPI, and PostgreSQL to build scalable and secure web application features.
- Participated in code reviews and debugging to maintain high code quality.
- Gained strong hands-on skills in backend logic and database operations with PostgreSQL.

Software Developer Intern – Inforios Software Technologies — March – Sept, 2024

- Developed a Stock Management System using React, TypeScript, FastAPI, and PostgreSQL.
- Implemented inventory tracking, pricing, and transaction modules.
- Built backend APIs and integrated frontend with real-time data.
- Gained hands-on experience in end-to-end full-stack development.

Projects

Sairam College Reward Point.

Tech Stack: HTML, CSS, React + TypeScript, Redux-Saga, Python (FastAPI), PostgreSQL, REST API, GraphQL

- Developed a complete full-stack Reward Point Management System consisting of three separate web applications for **Students**, **Admins**, and **Mentors**.
- Built dynamic and responsive front-end interfaces using HTML, CSS, ReactTS, and Redux-Saga for seamless state management and user experience.
- Designed and implemented scalable backend services using FastAPI, integrating both REST API and GraphQL for flexible and high-performance data operations.
- Utilized PostgreSQL for secure, reliable, and structured data storage, ensuring smooth handling of authentication, student details, reward points, event details, and admin workflows.
- Collaborated on end-to-end functionality including user registration, login, event approval, reward allocation, and progress tracking across all three apps.
- Live Project: https://pgpa.sairam.edu.in/login

Natyakala – Bharatanatyam Class Management Website

Tech Stack: HTML, CSS, React, TypeScript, Bootstrap

- Developed a responsive website for student enrollment and inquiries.
- Implemented registration forms, gallery, and contact features.
- Focused on UI/UX improvements and mobile responsiveness.

Education

Bachelor of Engineering — Mechanical Engineering **Aug, 2018 - May 2022**

Vandayar Engineering College, Thanjavur, TamilNadu

CGPA**: 8.31**

Certification

- Python for Data Science – **IBM** (Online Certification).
