PROFESSIONAL SUMMARY

Full Stack Developer with strong experience in Python, Django, React.js, and REST APIs. Currently working at IIIT Calicut building scalable real-time web applications. Skilled in Docker, Kubernetes, database design, and clean reusable code. Passionate about solving real-world problems and contributing to modern web development teams.

TECHNICAL SKILLS

Languages: Python, JavaScript, C
Frontend: HTML5, CSS3, JavaScript, React.js
Backend: Django, Django REST Framework, Node.js
Databases: MySQL, MongoDB
DevOps & Tools: Git, GitHub, Docker, Kubernetes, CI/CD, Postman, Render
Concepts: REST APIs, OOP, Data Structures, SDLC, Scalable Web Apps

EXPERIENCE

Full Stack Developer 2026 – Present
Indian Institute of Information Technology, Calicut (IIIT Calicut)

- Developing scalable web applications using Django, React.js, and REST APIs.
- Built internal platforms **Collabo** and **SkillDad LMS** for collaboration and online learning.
- Containerized applications using Docker and managed deployments with Kubernetes.
- Collaborated with UI/UX designers and backend teams to deliver real-time features.
- Debugged, optimized, and maintained production systems.

Python Developer Apr 2025 – Nov 2025
Softroniics, Perinthalmanna

- Engineered backend services using Django and Django REST Framework.
- Implemented secure Stripe payment integrations.
- Tested APIs using Postman and resolved production issues.

Full Stack Developer Apprentice Oct 2023 – Dec 2024
Sharpner Tech (Remote)

- Built full-stack features using React.js, Node.js, Express.js.
- Created REST APIs and integrated MySQL & MongoDB databases.

Frontend Developer Intern Dec 2022 – Jul 2023
Tefora Software Solution

- Developed responsive UI using React.js and modern CSS.
- Improved performance and usability of web applications.

PROJECTS

SkillDad LMS Platform

- Built full-stack LMS with live classes, payment integration, and student dashboard.
- Developed REST APIs using Django REST Framework and React.js frontend.
- Integrated Stripe and payment gateways for secure transactions.

- Implemented video hosting, authentication, and admin analytics system.

Collabo – Team Collaboration Platform

- Developed collaboration tool with real-time updates using Django backend.
- Implemented project boards, messaging, and role-based access system.
- Containerized deployment using Docker and Kubernetes.

SeatX – Event Seating Management System

- Built modular Django app with Stripe payments and dashboard workflows.

Auros – E-Commerce Platform

- Developed full e-commerce platform with authentication, cart, and order system.

EDUCATION

B.Tech Computer Science and Engineering 2022
MEA Engineering College – APJ Abdul Kalam Technological University

PUBLICATION

IoT Based Real-Time Flood Detection System – ICIIET Conference 2022
