PROFILE

Full Stack Web Developer with hands-on experience in building responsive web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in REST API integration, authentication, and modern UI development.

EDUCATION

Master of Computer Application (MCA)

Shivaji University | 2022 – 2024
GPA: 7.86

Bachelor of Computer Science

Shivaji University | 2019 – 2022
GPA: 8.32

EXPERIENCE

Jr. React.js Frontend Developer Intern

Auroskkil, Pune | June 2025 – Present

- Developing scalable and responsive frontend applications using React.js
- Implementing reusable components and modern React best practices
- Working closely with backend teams to integrate REST APIs
- Improving UI performance and user experience
- Following clean coding standards and version control using GitHub

Frontend Web Developer Intern

Noitavonne IT Solution, Kolhapur | Oct 2024 – Apr 2025

- Developed responsive and dynamic web applications using React.js, JavaScript, HTML5, and Tailwind CSS
- Built reusable and modular React components to enhance maintainability
- Integrated RESTful APIs for real-time data rendering
- Collaborated with backend developers and UI designers in an Agile environment
- Debugged UI issues and optimized application performance
- Gained hands-on experience with full-stack development workflows

EXTRA CURRICULAR ACTIVITIES

- Participated in coding workshops and technical seminars
- Actively involved in project-based learning and self-development
- Continuous learner through online platforms and developer communities

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6), React.js, Next.js, Tailwind CSS, Bootstrap
- Backend: Node.js, Express.js, PHP, RESTful APIs
- Database: MongoDB, MySQL
- Tools & Version Control: Git, GitHub, VS Code
- Other: Responsive Web Design, UI/UX Concepts, API Integration

---

PROJECTS

Expense Tracker – MERN Stack

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS
GitHub: https://github.com/pournimak2507-bit/expense-tracker

- Designed and developed a full-stack expense tracking application using MERN architecture
- Implemented secure JWT-based authentication with bcrypt password hashing
- Built protected routes and role-based authorization
- Developed complete CRUD functionality for expenses and income
- Integrated RESTful APIs for smooth frontend–backend communication
- Created interactive dashboards with charts to visualize expense data
- Designed a fully responsive UI using Tailwind CSS
- Optimized React performance by reducing unnecessary re-renders
- Followed component-based architecture for scalability and maintainability
- Used Git and GitHub for version control and project management

BlogSpace – Full Stack Blogging Platform

Technologies: React.js, Node.js, Express.js, MySQL, Multer, Tailwind CSS
GitHub: https://github.com/pournimak2507-bit/blog-project

- Developed a blogging platform allowing users to create, edit, delete, and manage blog posts
- Implemented JWT authentication with role-based access control (Admin/User)
- Integrated image upload functionality using Multer
- Built features such as search, category filtering, favorites, and dark mode
- Designed secure REST APIs for blog and user management
- Ensured responsive and user-friendly UI with Tailwind CSS
- Implemented form validation and proper error handling
- Optimized database queries for improved performance
- Tested APIs using Postman and debugged issues efficiently

HOBBIES

- Problem solving
- Learning new technologies
- Travelling
- Exploring UI/UX design trends

LANGUAGES

- English
- Hindi
- Marathi

CERTIFICATIONS

- Front-End Development Bootcamp (React.js & Next.js) – Auroskkil
- Completed 3-day intensive training with hands-on project work (3+ hours)
- Issued: 14 December 2025
