Engineering graduate skilled in C++, ReactJS, JavaScript, Spring Boot, and Node.Js. Experienced in full-stack development, optimizing application performance, and solving complex algorithms. Skilled in Agile methodologies and delivering scalable, high-performance solutions in collaborative environments. Passionate about enhancing user experience and driving engagement.

EDUCATION

Chandigarh University **June 2021 – July 2025**
B.Tech - Computer Science and Engineering - ***77.6*** *Mohali, Punjab*

TECHNICAL SKILLS

Languages: C++, C, Java, Python
Technologies/Frameworks: HTML, JavaScript,Spring Framework, React.JS, Spring Boot, Node.js, Bootstrap
Developer Tools: VS Code, IntelliJ, Git, Linux, NetBeans, Console, Github copilot

EXPERIENCE

Intern at KML Technologies **August 2024 – June 2025**
Role - Software Developer *Gurugram, Haryana*

* **Led** the development of 5+ scalable, high-performance web applications using React, JavaScript, and Spring Boot, improving user experience and ensuring robust, reliable functionality.
* **Managed** version control using Git and GitHub, collaborating with cross-functional teams in an Agile environment, and contributing to 5+ sprints, ensuring timely delivery of high-quality code.
* **Optimized** application performance and reduced load times by 30% through strategic code improvements and best practices in React and Spring Boot frameworks.
* **Integrated** third-party APIs and ensured seamless back-end to front-end connectivity, improving system efficiency and performance.

PROJECTS

Entertaiment Wave : Movies | HTML, CSS, PHP, Database - SQL **February 2023 – August 2023**

* **Delivered** personalized movie recommendations and reviews, boosting user engagement by 30%.
* **Optimized** API integration and streamlined database queries, achieving a 12% improvement in user satisfaction.
* **Designed** and implemented an advanced movie database architecture in SQL, improving query performance and reducing load times by 25%.

Tour and Travel Website | ReactJS, PHP, SQL, JavaScript, Bootstrap **December 2023 – January 2024**

* **Implemented** SEO techniques, increasing site rankings and user engagement by 25%.
* **Automated** and streamlined data flow between multiple departments, reducing administrative tasks and paperwork by 75%, leading to increased operational efficiency and improved cross-department collaboration.
* **Developed** a fully responsive and dynamic frontend using React and Bootstrap, improving the user experience and reducing page load times by 30%.

CODING PLATFORMS

· Solved **850+** Problems on **Leetcode**. (Leetcode Profile)
· Leetcode Max Rating: **2015** (Leetcode Profile)
· Solved **550+** Problems across **GeeksforGeeks** and **InterviewBit**. (GeeksforGeeks Profile)
· GeeksforGeeks Max Rating: **2967** (GeeksforGeeks Profile)

CERTIFICATIONS

· Learn C++ Programming -Beginner to Advance- Deep Dive in C++ - Udemy
· Mastering Data Structure and Algorithms - Udemy
· Learning Linux for LFCA Certifification(Learn Quest)
· Cyber Security: Managing Risk in the Information Age
