PROFESSIONAL SUMMARY

Python Developer with 2 years of experience in building automation solutions, developing web applications using Flask, and implementing cloud-based workflows on AWS. Skilled in Python scripting, backend development, API integration, and workflow automation using n8n. Strong background in image processing (OpenCV), cloud services (EC2, S3, Lambda, CloudWatch), and deploying user-focused digital solutions. Passionate about creating efficient, scalable Python-based systems for Web Development, Cloud Automation, and Application Development.

CORE SKILLS

Programming & Frameworks: Python, Flask, JavaScript, HTML, CSS, OpenCV, REST APIs, SQL.

Cloud & DevOps: AWS (EC2, S3, IAM, Lambda, CloudWatch, SNS, SQS, VPC/Subnets), Git, GitHub Actions, CI/CD, Terraform.

Automation: Python Scripting, Workflow Automation (n8n), WhatsApp Automation, Task Scheduling.

Tools: WordPress, Flask, Python OpenCV, Postman, Linux/Bash, VS Code

AI & Productivity: Generative AI, Prompt Engineering, Claude, GitHub Copilot.

PROFESSIONAL EXPERIENCE Karthik Enterprises | Python & Automation Developer Jan 2025 – Jun 2025

- Developed automation workflows using Python, JavaScript, and n8n, reducing manual effort by 60% and improving internal team productivity.
- Built and maintained automated WhatsApp-based update system using Python scripts for faster client communication and Developed a Flutter-based mobile application for internal bale packing and dispatch management.
- Improved website performance and accuracy by optimizing WordPress systems.
- Executed targeted automation campaigns resulting in a 30% increase in customer engagement.

Maxelerator Foundation | Python Developer (Web & AI) Jun 2023 – Sep 2024

- Developed responsive Flask web applications using Python, HTML, CSS, and JavaScript.
- Built Image Processing applications using Python OpenCV for object detection and feature extraction.
- Automated workflows using Generative AI and Python to improve project efficiency.
- Implemented ORB-based location identification module for a research project at IIT Madras Research Park.
- Conducted training on Python, OpenCV, AI/ML, and Generative AI, improving learner proficiency across multiple batches.

Active English Training Solutions | Communication Trainer Mar 2022 – Apr 2023

- Delivered structured instructor-led training to improve communication and presentation quality for diverse learners.
- Developed training plans, interactive modules, and practice tools that improved learner fluency scores by 35%.

PROJECTS

WhatsApp Price Automation System (Python + n8n)

- Automated weekly pricing updates using Python scripts integrated with WhatsApp API.
- Improved speed and accuracy of communication, reducing manual work by 60%.

Flutter Mobile Application – Fabric Management Prototype

- Built a Flutter mobile application for bale packing and dispatch management to streamline internal operations and data tracking.

Image Processing Suite (Python OpenCV)

- Implemented modules for ORB feature detection, image comparison, and object tracking.
- Used in IIT Madras Research Park's summer project.

Student Communication Automation – AcetutorPlus (UK)

- Built n8n-based automation to send student marksheets to parents via email using data from Excel / Google Sheets.
- Implemented scheduled exam reminder emails in 3 phases (1 week before, 2 days before, exam day) using n8n triggers and conditional logic.
- Improved communication accuracy and reduced manual administrative effort through end-to-end workflow automation.

AI-Driven Workflow Builder – n8n + ChatGPT

- Built an AI-powered n8n workflow using a ChatGPT node to collect user inputs via chatbot and auto-generate workflows dynamically.

Education

- B.Sc. Computer Science – Sourashtra College for Women | 76%
- H.S.C. – St. Joseph's Girls' Higher Secondary School | 67%
- S.S.L.C. – St. Joseph's Girls' Higher Secondary School | 84%

Certifications & Badges

- AWS Certified Cloud Practitioner - AWS Cloud Practitioner Badge
- AWS re/Start Graduate Badge - Graduate Badge

Declaration

I hereby declare that the particulars furnished above are true to th e best of knowledge and belief.
