PROFESSIONAL SUMMARY

Computer Science Engineering student with experience building AI-powered full-stack applications and automation systems. Seeking a software engineering internship to apply technical skills to enterprise challenges.

EDUCATION

P E S College Of Engineering, Mandya — Expected 2026
Bachelor of Engineering in Computer Science
Cumulative GPA: 9.8/10

Govt PU College, Bannur — 2020-2022
Pre-University Course (PUC) - Science
Percentage: 97.7%

SKILLS

Programming Languages: C, C++, Python, JavaScript
Web Development: React.js, Node.js, Express.js, HTML5, CSS3
Databases: MongoDB, MySQL
Automation: UiPath, Robotic Process Automation (RPA)
Core CS: Data Structures & Algorithms, Operating Systems, Computer Networks, Machine Learning

PROJECTS

TrackMe - AI-Powered Expense Tracker | GitHub link

Technologies: React.js, Node.js, Express.js, MongoDB, Gemini API
- Built secure full-stack personal finance platform with JWT authentication and role-based access
- Integrated Gemini AI API to categorize transactions and generate budgeting recommendations
- Designed analytics dashboards processing 500+ transactions per user

YouTube Comment Analyzer | GitHub link

Technologies: RPA, UiPath, HTML, CSS, JavaScript, YouTube Data API
- Engineered UiPath RPA automation pipeline to fetch and process YouTube comment data via YouTube Data API
- Reduced manual data collection time by 90%
- Integrated Google Gemini API for sentiment classification and AI-driven insights
- Built automated reporting system with Excel output for large-scale sentiment monitoring

SmartMarket Pro | GitHub link

Technologies: React.js, TypeScript, Node.js, Supabase, Machine Learning
- Developed scalable vendor digitization platform using React.js, TypeScript, and Supabase
- Streamlined inventory tracking, order management, and transaction workflows
- Integrated machine learning models to enhance prediction accuracy for vendor decisions
- Built responsive interface for online product discovery, ordering, and real-time inventory

ACHIEVEMENTS & CERTIFICATIONS

- Certificate of Merit, Naukri Campus Young Turks 2025: 99.52 percentile ranking nationwide
- Top 5, Innovesta Intra-College Hackathon
- HackerRank Problem Solving Certification (Analytical thinking and algorithmic problem solving)
