PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience in building cross-platform mobile applications using Flutter and Dart. Strong understanding of state management, local databases, and REST API integration. Currently learning Firebase integration. Experienced in developing real-world projects including EduTrak Systems, productivity apps, and finance apps. Passionate about clean architecture, reusable widgets, and scalable app design. Actively learning advanced Flutter concepts and AI integration.

TECHNICAL SKILLS

Languages & Frameworks

- Dart
- Flutter
- HTML5, CSS3 (Basic)

State Management

- BLoC
- Provider
- GetX

Backend & Databases

- REST APIs
- Hive
- Sqflite

- Firebase (Learning)

Tools & Platforms

- Git & GitHub
- VS Code

Other Skills

- Clean Architecture
- Reusable Widgets
- MVC / MVVM Basics
- AI Integration (Learning)

PROJECTS

EduTrak System – Teachers App

Flutter | Hive | SharedPreferences| Provider

- Developed the Teachers module of an EdTech system using Flutter.
- Implemented Attendance, Admission, and Timetable management features.
- Followed well-structured folder architecture and reusable widget patterns.
- Gained real-world experience in educational application requirements.
- Currently planning Admin Panel and Student App to complete the EduTrak System.

  GitHub: https://github.com/hashimtkd/EduTrack

Weather App

- Built a Flutter application to fetch and display real-time weather data using REST APIs.
- Focused on API integration, JSON parsing, and UI updates.
  GitHub: https://github.com/hashimtkd/appweather

Todo App

Flutter | Hive | Getx

- Developed a task management app with CRUD operations.

- Used local storage and practiced state management concepts.
  GitHub: https://github.com/hashimtkd/TODO-app

Money Manager App

- Built a personal finance tracking app for income and expense management.
- Implemented local database storage using Hive/Sqflite.
  GitHub: https://github.com/hashimtkd/money-manager

TRAINING & EXPERIENCE

Advanced Flutter & AI Integration (Remote Training Program)

MakBig | Apr 2025 – Present

- Project-based remote training in Flutter & Dart.
- Weekly hands-on assignments and real-world projects.
- Built cross-platform Flutter applications.
- Currently learning Firebase Authentication and Firestore.
- Worked with Hive and Sqflite for local storage.
- Currently learning and implementing AI features in Flutter apps.

SELF LEARNING

Brototype – YouTube (Jan 2025 – Apr 2025)

- Learned C and Java basics for programming fundamentals.
- Completed Dart programming concepts (OOP, async basics).
- Learned Flutter at intermediate level.
- Practiced widgets, layouts, navigation, and basic state management.
- Built small projects and coding exercises.

EDUCATION

University of Calicut

Afzalul Ulama – Preliminary
Arabic Language and Literature
Jun 2020 – Jun 2022

- Studied Arabic language, Islamic jurisprudence, and related subjects.
- Completed through distance learning / self-paced mode.

ADDITIONAL INFORMATION

- Flutter Fresher actively seeking opportunities.
- Strong interest in Full-Stack Flutter Development.
- Comfortable working in remote, collaborative environments.
- Continuously improving English communication skills.
