ASLAHA H

Email: asaslaha123@gmail.com—Phone: 9947494310
LinkedIn: linkedin.com/in/aslaha-h-269a37323
Trivandrum, Kerala, India

Professional Summary

Passionate Python Full-Stack developer skilled in Python, OOP, MySQL, front-end, and back-end development. Experienced in building real-world projects and applying strong analytical and problem-solving skills. Holds a BTech in Electronics and Communication Engineering. Motivated to learn continuously and develop efficient, user-friendly applications.

Skills

Technical Skills

- Programming: Python, OOP, MySQL, HTML,CSS, JavaScript, Bootstrap, Django, Flask, MongoDB
- Embedded Systems: Arduino,ESP32, Sensors
- Tools and Platforms: VS Code

Soft Skills

- Problem solving and analytical thinking
- Effective communication and teamwork
- Detail oriented and logical approach

Academic Details

- **B.Tech in Electronics and Communication Engineering** — Muslim Association College of Engineering and Polytechnic, Trivandrum (KTU), 2025
- **Higher Secondary Education** — GHSS Bharathannoor, Trivandrum, 2021
- **SSLC** — GVHSS Kallara, Trivandrum,2019

Projects

Unmanned Water Vehicle for Human Detection

- Developed an unmanned water search vehicle using ESP32, ultrasonic and radar sensors, camera, GSM, and GPS modules.
- Implemented real-time human detection using YOLOv4 with Python.
- Designed an efficient user-interaction interface for rescue operations.

Alcohol Detection and Engine Locking System

- Built an alcohol detection and engine locking mechanism using MQ3 sensor, Arduino Uno, and LCD display.
- Developed logic for alcohol-level monitoring, threshold comparison, and system alerts.
- Automated engine shutdown and safety alerts to prevent drunk-driving incidents.

Internships

Python Full-Stack Development – Quest Innovative Solutions, Trivandrum

- Hands-on training in Python programming and application development.
- Practicing problem-solving through small projects.
- Strengthening OOP concepts, SQL operations, and coding standards.

Embedded Systems – ICT Academy, Technopark Trivandrum

- Worked with microcontrollers (Arduino, ESP32) and sensors for real-time applications.
- Gained experience in interfacing, debugging, testing, and optimizing embedded circuits and code.

Achievements

- Techfest Volunteer: Event Coordinator and Technical Support
- Athletics: College Team Member

Languages Known

- English: Speak, Read, Write
- Malayalam: Speak, Read, Write
- Tamil: Speak
