ROHINI C

MERN Stack Developer

Bengaluru, Karnataka — rohinic699@gmail.com — +91-8891013492
LinkedIn — GitHub — Portfolio

PROFESSIONAL SUMMARY

Skilled MERN Stack Developer with professional experience building scalable, user-centric web applications in fast-paced development environments. Proficient in React.js, Next.js, Node.js, Express.js, MongoDB, and modern frontend technologies with proven ability to deliver high-quality solutions. Experienced in developing responsive interfaces, optimizing application performance, and collaborating with cross-functional teams. Strong foundation in full-stack development, RESTful API integration, state management, and agile methodologies with a track record of contributing to production-level applications.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3, SQL
Frontend Technologies: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Material UI, Responsive Design
Backend Technologies: Node.js, Express.js, RESTful APIs, WebSocket, JWT Authentication, OAuth, MVC Architecture
Database Systems: MongoDB, Mongoose ODM, PostgreSQL, SQL Database Design
Development Tools: Git, GitHub, VS Code, Postman, Webpack, Babel, Figma
Deployment & Cloud: Vercel, Netlify, AWS EC2, Render, MongoDB Atlas, NGINX, CI/CD Pipelines

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern — ZM QR Code Services, Guntur, India January 2025 – February 2025

- Built responsive dashboard using React.js, Tailwind CSS, and Material UI with mobile-first design approach
- Integrated WebSocket technology to enable real-time data updates and push notifications for improved user experience
- Developed RESTful APIs using Node.js and Express.js for dynamic user operations and data management
- Designed and optimized SQL database queries to manage structured user and transaction data efficiently
- Participated in version-controlled collaborative development using Git and conducted code review processes
- Collaborated with cross-functional team to deliver project milestones on schedule

PROJECTS

Multicode IDE — Online Multi-Language Code Editor GitHub — Live Demo

- Developed full-stack web IDE supporting multiple programming languages including Python, JavaScript, C, C++, and Java
- Integrated Piston API for real-time code execution directly from the browser
- Implemented user authentication (signup, login, logout) with JWT and protected routes
- Designed and built project management system to create, edit, delete, and run code projects
- Developed modern responsive UI using React.js, Tailwind CSS, and React Select for language selection
- Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Vite, Vercel

Chatify — Real-Time Chat Application GitHub — Live Demo

- Built full-stack real-time chat application featuring instant messaging and live online/offline presence tracking
- Implemented secure custom JWT authentication without third-party services for complete control over user sessions
- Integrated Socket.io for live message updates, typing indicators, and real-time user presence
- Added sound toggle and notification system for improved UX and interactivity
- Supported image uploads via Cloudinary and automated welcome emails using Resend API
- Secured REST APIs with rate-limiting powered by Arcjet and robust backend validation
- Built elegant, responsive UI using React.js, Tailwind CSS, and DaisyUI, with state management through Zustand
- Technologies: React.js, Node.js, Express.js, MongoDB, Socket.io, Cloudinary, Resend, Arcjet, Zustand, Tailwind CSS, DaisyUI, Vercel

BiteHeaven — Full-Stack Food Delivery Application GitHub — Live Demo

- Developed complete food delivery system with shopping cart, menu management, and secure checkout functionality
- Implemented real-time order tracking system using WebSocket and responsive UI design
- Built scalable backend APIs in Node.js and Express.js with MongoDB database integration
- Integrated payment processing and user authentication systems
- Technologies: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, WebSocket, Vercel

Lively — React Video Streaming Platform GitHub — Live Demo

- Built live and on-demand video streaming platform with React and React Router
- Integrated WebRTC and ZegoCloud for real-time video streaming capabilities
- Implemented Firebase authentication system with user management features
- Developed responsive UI supporting multiple device formats
- Technologies: React.js, React Router, WebRTC, ZegoCloud, Firebase Authentication, Vercel

AI Image Builder — AI-Powered Image Generation Platform GitHub — Live Demo

- Developed full-stack MERN application enabling users to generate unique AI-powered images based on text prompts
- Implemented secure JWT authentication system with user signup, login, and session management
- Created user dashboard featuring image generation history and account management capabilities
- Designed responsive modern UI using React.js, Vite, and Tailwind CSS for optimal cross-device experience
- Technologies: React.js, Vite, Node.js, Express.js, MongoDB Atlas, JWT, Tailwind CSS, Vercel, Render

EDUCATION

MERN Stack Development Bootcamp — Brototype, Kochi, India October 2023 – December 2025

- Comprehensive full-stack development training in MongoDB, Express.js, React.js, and Node.js
- Completed multiple end-to-end projects with real-world application development experience
- Gained expertise in modern web development practices and industry best practices

Bachelor of Science in Chemistry — Kerala University, Kerala, India August 2020 – May 2023

CERTIFICATIONS

Advanced React.js Development — Udemy 2024
Comprehensive training in React Hooks, Redux, performance optimization, and architecture best practices

Modern JavaScript Development — Great Learning 2024
Advanced JavaScript concepts including ES6+, async/await, modules, and functional programming

ADDITIONAL INFORMATION

Languages: English (Professional Working Proficiency), Malayalam (Native), Hindi (Professional Working Proficiency), Marathi (Conversational)

Core Competencies: Problem Solving, Team Collaboration, Agile Development, Code Review, Technical Documentation, Database Design, API Development, Version Control, Responsive Web Design, Performance Optimization
