PROFILE

Python Full Stack Developer skilled in building scalable and responsive web applications using Python, Django, Django REST Framework, React.js, and PostgreSQL. Experienced in backend development, RESTful API design, authentication systems (JWT), and full CRUD operations. Strong understanding of database integration, frontend–backend communication, and deployment workflows. Passionate about developing clean, efficient, and user-focused applications while continuously improving software engineering skills.

EDUCATION

Arul Anandar College, Karumathur, 09/2021 – 04/2024 | Madurai
B.Sc Food Science and Technology

TECHNICAL SKILLS

Backend Development
Python, Django, Django REST Framework, RESTful APIs, Authentication (JWT)

Frontend Development
React.js, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS

Databases
MongoDB, PostgreSQL

Development Tools
Git, GitHub, Postman

PROJECTS

YouMatter - Mental Health & Wellness Platform
- Developed a full-stack wellness platform using Django REST Framework and React.js.
- Designed and implemented secure RESTful APIs with JWT authentication.
- Built responsive UI components using Tailwind CSS for improved user experience.
- Integrated PostgreSQL database supporting full CRUD functionality.
- Deployed frontend on Vercel and backend on Render with production-ready configuration.
- Implemented mood tracking, journaling, and wellness modules.

JobVerix - IT Jobs Platform
- Engineered a production-ready job portal using Django REST Framework and React (Vite).
- Developed SEO-optimized job listing architecture including sitemap, schema, and breadcrumbs.
- Implemented advanced filtering and job search features for better usability.
- Integrated external apply links and job tracking functionality.
- Designed fully responsive UI to support multiple screen sizes.
- Optimized API responses for efficient frontend communication.

Pets World - Dog Resource Web Application
- Built a full-stack web application using Django and MongoDB.
- Designed categorized modules for food, accessories, healthcare, and training resources
- Implemented backend logic for structured content organization
- Developed responsive layouts to improve accessibility and user engagement.

CERTIFICATE

Full Stack Developer Certification — T4TEQ
Certified in developing scalable and responsive web applications using modern frontend and backend technologies.
