SKILLS

FRONT END DEVELOPMENT| ReactJS • Redux •Next Js • JavaScript •TypeScript • Material UI • Tailwind css • HTML • CSS • Bootstrap
BACK END DEVELOPMENT| Node • Express • Sails Js • Prisma • PostgreSQL •MongoDB • Apollo Graphql
MISCELLANEOUS| Amazon AWS • Socket io • Java •DSA

EXPERIENCE

Matrimony.com | **React Js, Next Js, Node Js, PostgreSQL, Graphql**
Software Engineer | June 2024 - Present, Chennai

Wedding Bazaar Vendor App

- **Developed Wedding Bazaar Vendor Platform**: Built end-to-end web and app solutions for vendor onboarding, lead management, and customer follow-ups.
- **Portfolio & Availability Management**: Enabled vendors to manage portfolios (videos/albums) and availability across platforms
- **Multi-Category Support**: Catered to diverse vendors like photographers, venues, event planners, mehndi artists, and more
- **Integrated Razorpay:** Added payment gateway, review/rating system, and streamlined vendor operations on web and app.

Wedding Bazaar Portal

- **Optimized Website**: Used lazy loading, code splitting, and memoization to cut load times by 40%, boosting engagement by 20%
- **Increased Traffic**: Improved performance and image optimization, growing monthly users to 400k.
- **Mobile Navigation**: Built bottom navigation for mobile, raising session duration by 15%.
- **UTM Tracking**: Added UTM tracking for campaigns, increasing ROI by 25%
- **Auto-login Integration**: Enabled encrypted URL-based login using customer ID and phone, cutting user effort and boosting login rates.

Mandap Portal

- **Optimized Website**: Used lazy loading, code splitting, and memoization to cut load times by 40%, boosting engagement by 20%.
- **Increased Traffic**: Improved performance and image optimization, growing monthly users to 400k.
- **UTM Tracking**: Added UTM tracking for campaigns, increasing ROI by 30%.

Wedding Bazaar CRM

- Enabled bulk lead assignment and secured intent-based access for authorized users.
- Implemented media upload and approval flow for vendor photos and videos.
- Added branding support for MUA vendors with dynamic logo integration.

Make My Wedding

- **Website Redesign**: Revamped Make My Wedding with a modern design for better UX.
- **Event Tracking**: Built queries and tracked events to monitor user behavior.
- **Lead Generation**: Worked on BM-MMW promotions and lead flows in the BM app.

EDUCATION

MALOUT INSTITUTE OF MANAGEMENT AND INFORMATION TECHNOLOGY
Bachelor of Technology
September 2021 | Bathinda

Rajendra College
Intermediate
2016 | Chhapra

HONORS & AWARDS

CODING COMPETITION
Ranked 8th among 900 students | Newton School | June 2022

NCC CERTIFICATE
Received NCC 'C' Certificate, showcasing dedication, leadership, and teamwork skills.

| Naval NCC | May 2021

COURSEWORK

Data Structures and Algorithms
Full-Stack Web Development using React.js, Node.js, and PostgreSQL,
Low-Level System Design

INTERESTS

Learning agility,
Communication and collaboration,
Self-Improvement

KPR Info Solution | React Js, Node Js, PostgreSQL

Software Developer | Jan 2023 - May 2024, Coimbatore

NVPL ERP

- Developed a streamlined ERP application with React.js, Node.js, and PostgreSQL, completing it within 6 months with thorough testing.
- Incorporated Socket.io for real-time data updates, enhancing user experience with quicker information dissemination.
- Constructed secure APIs with Node.js and Sails.js, ensuring rapid data retrieval and system reliability for internal operations.
- Managed 50 pull requests, merged 220 code changes, and established a QR code-based gate pass system that slashed vehicle entry processing time by 35%.

Contributed to a 40% increase in company revenue through the successful implementation of the ERP application and optimized business processes.

Golden Carat ERP and Design Management

- Contributed to Golden Carat's ERP and Design project, aiding user and jewelry design management for a Mumbai firm, with a team of 10 developers.
- Utilized ReactJS, Node.js, and PostgreSQL, cutting design-to-production time by 25%.
- Enhanced operations and productivity at Golden Carat, resulting in a 15% production increase and 10% error reduction.

Achieved a 20% reduction in design process turnaround time through implementation of tailored user solutions at Golden Carat.

Task Management Application

- Built a real-time app with React.js, Node.js, Express.js, and Socket.io, serving 500+ users concurrently for efficient task management and communication.
- Implemented duplicate page detection, reducing data redundancy by 30% and enhancing user experience.
- Integrated Forgot Password with Nodemailer, enabling 95% of users to recover passwords swiftly.
- Integrated OAuth authentication, cutting login failures by 15%.

Reduced inactive user count by 30% through automated cron jobs, enhancing database integrity and system performance.

Newton School | React Js, Node Js, MongoDB, Java, BootStrap

Software Developer Intern | Jan 2022 - Sep 2022, Remote

- Engineered four distinct applications: Realtime Private Chat, E-commerce, Quiz, and Blog, utilizing JavaScript, HTML, CSS, React.js, Node.js, and MongoDB.
- Elevated algorithmic proficiency through participation in over 10 coding contests, consistently achieving top rankings.
- Applied modern technologies to develop 5 user-centric solutions during internship projects, resulting in a 30% increase in user engagement metrics.
