PROFILE

Frontend Developer with 1+ year of experience building scalable, responsive web applications using React.js and Next.js. Proficient in TypeScript, Tailwind CSS, and modern UI architecture. Experienced in developing dashboards and admin panels with a strong focus on performance, usability, and maintainable code. Adept at collaborating with cross-functional teams to deliver reliable, production-ready interfaces.

WORK EXPERIENCE

UNILAW TECHNOLOGIES, *Junior Software Developer*
september 2024 - Present | Ernakulam, Kerala

- Contributed to production projects including **Sharaf Exchange** and **YallaToys**, delivering scalable and maintainable frontend solutions.
- Developed clean, responsive, and user-centric interfaces using React.js, Next.js, and Tailwind CSS, improving usability and visual consistency across devices.
- Built dashboards and admin panels with dynamic data handling, role-based access, and reusable component architecture.
- Collaborated closely with team members to provide technical support, review code, and share development insights.
- Integrated REST APIs and managed application state using Redux Toolkit and TanStack Query for efficient data synchronization.
- Implemented interactive and optimized solutions using Next.js features such as App Router, Middleware, and Server Components.
- Handled production deployments using GoDaddy cPanel and DigitalOcean via SSH, ensuring smooth releases and environment configuration.

SKILLS

- **Frontend & Frameworks:** Next.js, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS.

- **State & Data Management:** Redux Toolkit, React Context, React Query (TanStack Query), AxiosNegotiation skills.
- **Authentication & Security:** JWT, role-based access, cookies/localStorage, Next.js Middleware.
- **Projects & Architecture:** Server Components, API Routes, Admin dashboards, scalable frontend architecture.
- **UI & Animations:** Component systems, Framer Motion, GSAP, Material UI, shadcn/ui.
- **Forms & Validation:** React Hook Form, Zod, Yup.
- **Projects & Architecture:** Server Components, API Routes, Admin dashboards, scalable frontend architecture.
