GURU PRAKASH RAJ

PYTHON DEVELOPER

Open to : Mumbai, Chennai, Pune, Hyderabad, Delhi, and Bangalore

Phno:6380096801 **Email:**Essakiprakash26@gmail.com **LinkedIn**:linkedin.com/in/guruprakashraj26

SUMMARY

Motivated and detail-oriented Python Developer with hands-on experience in building and deploying Django-based applications. Passionate about cybersecurity and web application security, with a strong interest in developing secure, scalable, and user-focused software solutions. Eager to contribute technical expertise, creativity, and problem-solving skills to a dynamic team. Open and ready to relocate.

TECHNICAL SKILLS

- **Programming:** Python, HTML5, CSS3
- **Frameworks:** Django, Bootstrap
- **Databases:** MySQL, SQLite, PyMySQL
- **Tools:** Render, Git, VS Code, Kali Linux
- **Concepts:** Authentication, CRUD, REST APIs, MVC ,ORM
- **Cybersecurity:** Secure Coding, Ethical Hacking Basics
- **Soft Skills:** Problem Solving, Adaptability, Team Collaboration

PROJECTS

Annam Pickles – eCommerce Web Application

Tech Stack: Python | Django | HTML | CSS | Bootstrap | PyMySQL

Overview:

Annam Pickles is an eCommerce web application built for selling homemade masalas and pickles, similar to Flipkart's model. The project demonstrates full-stack web development capabilities, including product management, authentication, and database integration.

Key Contributions:

- Designed and developed the entire web application independently using Django.
- Implemented user registration, login, and profile management with session handling.
- Developed add-to-cart functionality and simulated checkout process for multiple products.
- Integrated PyMySQL for secure and efficient data storage of users, products, and orders.
- Built a responsive and attractive UI using Bootstrap and JavaScript.
- Developed admin panel for adding, editing, and deleting products and categories.
- Currently integrating payment gateway for deployment readiness.
- Focused on data integrity, clean code, and user-friendly navigation throughout development.

Outcome:

Successfully built a functional and scalable eCommerce platform demonstrating proficiency in Django, database handling, and frontend development.

Defencia – Freelancing & Startup Software Platform

Tech Stack: Python | Django | HTML | CSS | Bootstrap | PyMySQL

Overview:
Defencia is a freelancing and startup platform developed as a personal startup initiative to offer digital services and showcase project portfolios. The project demonstrates full-stack development, real-world deployment, and cloud hosting expertise

Key Contributions:

- Designed and developed a freelancing web platform with service listings and contact features.
- Integrated Django authentication system for secure login, logout, and password recovery.
- Built a responsive Bootstrap interface ensuring smooth experience across devices.
- Developed an admin dashboard to manage content, messages, and client interactions.
- Configured Render cloud deployment, handling hosting, domain setup, and maintenance.
- Focused on UI/UX design, performance optimization, and scalability.
- Displayed strong entrepreneurial and problem-solving mindset by executing a live project independently.

Outcome:
Successfully deployed on Render — **https://defencia.in/ —** demonstrating ability to design, develop, and deploy production-ready Django applications.

EDUCATION

****B.Tech – Information Technology****

Francis Xavier Engineering College, Tirunelveli, Tamil Nadu | CGPA: 7.70

****HSC (Higher Secondary Certificate)****

IIPE Laxmi Raman Matric Hr. Sec. School, Tirunelveli, Tamil Nadu | Percentage: 55%

****SSLC (Secondary School Leaving Certificate)****

Sivanthi Matric Hr. Sec. School, Tirunelveli, Tamil Nadu | Percentage: 60%

INTENSHIP EXPERIENCE

.NET Developer – RCF Ltd., Mumbai (2 Months)

- Assisted in testing, debugging, and SQL database operations.
- Learned core .NET concepts and improved software analysis skills..

Frontend Developer – TCARE Technology, Chennai (3 Months)

- Built responsive static web pages using HTML & CSS.
- Learned Bootstrap layouts and real-world collaboration techniques.

CERTIFICATES

- Introduction to Cybersecurity – Cisco
- Cyber Threat Management – Cisco
- Ethical Hacking Essentials – EC-Council
- CyberTech Mastery – Selfmade Ninja

AREA OF INTEREST

- Python Developer
- Cybersecurity Analyst
- SOC Analyst
- SQL Developer
