AKHIL PIOUS

Python Developer-Fresher

akhilpioussince2001@gmail.com | 6238088630 | linkedin.com/in/akhil-pious|
Ernakulam,Kerala,India

OBJECTIVE

Entry-level Python Developer with hands-on experience building backend and full-stack applications using Python, Django, REST APIs, and MySQL. Worked on real-world projects involving authentication, CRUD operations, and database design. Seeking a junior Python developer role to contribute clean, maintainable code and grow in a professional team.

SKILLS

• Programming Languages: Python, JavaScript, SQL

• Backend: Django, Django REST Framework, REST APIs

• Database: MySQL, SQLite

• Frontend (basic): HTML, CSS, Bootstrap, React

• Tools & Platforms: Git, GitHub, VS Code

• Core Concepts: Object-Oriented Programming (OOP), MVT Architecture, API Design , Debugging & Problem- Solving

PROJECTS

Blog Website (Django, Python, HTML, CSS, SQLite)

Github: https://github.com/akhil429359/projects/tree/main/project

- Built a **full-stack blog platform** using Django for authors, readers, and admins.
- Implemented **user authentication, profile management, and CRUD operations** for blog posts.
- Developed **SEO-friendly slugs, commenting system, and author dashboard** to enhance engagement.
- Integrated **admin moderation tools** for managing users, posts, and comments.

Job Portal Application (React, Django, MySQL, REST API)

Github:https://github.com/akhil429359/Jobportal

- Developed a backend-driven recruitment platform using **Django** and **Django REST Framework**.
- Designed **RESTful APIs** for user **authentication**, job postings, applications, and chat features.
- Implemented **JWT-based authentication** and role-based access control.
- Designed and managed **MySQL** database schemas for users, jobs, and applications.
- Integrated backend **APIs** with a **React** frontend and deployed the application.

Student Management System (Django, Python, HTML, SQLite)

Github:https://github.com/akhil429359/sys

- Built a **Django**-based application using **MVT** architecture to manage student records.
- Implemented **CRUD** operations using **Django ORM** and **ModelForms**.
- Added **search**, sorting, **pagination**, and **soft delete** functionality.
- Ensured data validation and secure handling of student information.

ADDITIONAL EXPERIENCE

Inventory Management System(Django, Python, HTML, SQLite)

Github:https://github.com/akhil429359/inventory-management-system

Leave Management System(Django, Python, HTML, SQLite)

Github:https://github.com/akhil429359/Leave-management-system

CivicFlow(Django, Python, HTML, SQLite)

Github:https://github.com/akhil429359/civicflow

EDUCATION

Bsc.Ind.Chemistry **July 2019 - March 2022**

ST. ALBERT'S COLLEGE,ERNAKULAM,KERALA.

COURSES AND CERTIFICATES

Python full stack(completed) **February 2025 – August 2025**

Oneteam Institute,Kochi.

- Python, Django, REST APIs, SQL, MySQL, React (basic).
- Built backend-driven web applications with database integration.
- Applied OOP principles, MVT architecture, and Git workflows
