Summary

- **Experienced Python full-stack developer with expertise in designing, developing, and deploying scalable web applications. Proficient in Django, frontend technologies (HTML, CSS, JavaScript, Bootstrap), and database management (SQL). Strong problem-solving and clean coding skills with a focus on building user-friendly, efficient systems.**:

Skills Summary

- **Languages**: Python, JavaScript, SQL ,HTML5, CSS3, Bootstrap
- **Frameworks**: Django, TensorFlow, Flask,
- **Tools**: GIT, PostgreSQL, MySQL,
- **Platforms**: Web, Windows,
- **Soft Skills**: Leadership,Problem solving, Writing, Team collaboration, Time Management

Experience

- **Luminar Technolab** Kochi
  Python Fullstack Developer Intern (Full-time) *June 2025 - Jan 2026*
  - **Web Development**: Gained practical experience in Django-based web application development including backend logic, REST API integration, and database management (MySQL).
  - **UI Design**: Designed responsive UI using HTML5, CSS3, Bootstrap, and JavaScript for client-facing modules.
  - **Core Functionality**: Worked on CRUD operations, authentication systems, and template rendering in Django.
  - **Deployment and Debugging**: Contributed to project documentation and assisted in debugging and deployment processes.
  - **Collaboration and Tools**: Improved understanding of MVC architecture, Git version control, and collaborative software development.

Projects

- **Herbify – Medicinal Plant Identification E-Commerce Platform** : Developed a Deep Learning–based web platform for identifying medicinal plants and trading them securely. Integrated chatbot support and an e-commerce system using Python, Flask, TensorFlow, and MySQL.
- **ReadHub – Online Bookstore Web Application** : Built a full-stack web app for browsing, filtering, and purchasing books online with features like user login and cart management using Django, Bootstrap, and SQLite.
- **BrewBuddy – Coffee Shop Management System** : Created a responsive web application for product display, order handling, and authentication using Django, HTML, CSS, Bootstrap, and JavaScript.
- **Hostelease – Hostel Room Management System** : Developed a hostel management web application for room booking, student registration, and admin control using Python, Django, and SQLite.

Education

- **College of Applied Science** Chelakkara, Thrissur
  Bachelor of Science in Computer Science: CGPA: 7.183 *August 2022 - March 2025*
  Learn: *Developed a strong foundation in computer science principles and programming.*
- **G G H S S Alathur** Alathur, Palakkad
  SSLC: Percentage:85 *June 2019 - March 2020*
- **G G H S S Alathur** Alathur, Palakkad
  Higher Secondary : Percentage:77 *June 2020 - March 2022*

Volunteer Experience

- **National Service Scheme NSS** Thrissur, Kerala
  Actively participated in social service and community development programs *august 2022 - December 2024*
- **Women Cell Coordinator**
  Organized awareness programs and empowerment events promoting women's safety and leadership on campus
