md-tushar-ahmed tushar-3549 Dhaka, Bangladesh

PROFILE SUMMARY

A results-oriented Computer Science and Engineering graduate with a strong foundation in programming and problem-solving. Focused on building secure, scalable, and efficient solutions using modern technologies. Demonstrates a strong learning aptitude and the ability to translate theoretical knowledge into real-world applications. Gained valuable practical experience through an internship, with a readiness to actively contribute to dynamic professional environments.

EDUCATION

- **Jahangirnagar University**
  Masters of Science in Computer Science | Fall 2025 – Present
- **Daffodil International University**
  Bachelor of Science in Computer Science and Engineering | Spring 2020 – Spring 2024
  CGPA: **3.65** (on the scale of 4.00)
- **Major General Mahmudul Hasan Adarsha College, Tangail**
  Higher Secondary School Certificate | 2017 - 2019
  GPA: **4.58** (on the scale of 5.00)
- **Police Lines Adarsha High School, Tangail**
  Secondary School Certificate | 2017
  GPA: **5.00** (on the scale of 5.00)

TECHNICAL SKILLS

- **Programming Languages**: Python, C / C++, JavaScript
- **Operating Systems**: Windows, Ubuntu
- **Database**: PostgreSQL, MySQL, SQLite3
- **Libraries/Framework**: FastAPI, Django REST, Pandas, Bootstrap, React
- **Miscellaneous**: Git & Github, Docker, Data Structure and Algorithms

RELATED EXPERIENCE

Intern Dhaka, Bangladesh
Barikoi Technologies Ltd *Nov* 2024 – Apr 2025

- Gained hands-on experience in python programming and implemented RESTful API design and developed secure CRUD operations with authentication using frameworks.
- Improved code efficiency by optimizing Python logic and reducing database query execution time.
- Wrote and optimized SQL and geo-spatial queries using PostgreSQL for location-based data processing.
- Updated the Rupantor Geo API by validating data against database and implemented regular expressions for newly identified areas.

Jr Software Engineer Dhaka, Bangladesh
Dhaka Meta Co,. Ltd *Jul 2025 – Sep 2025*

- Built RESTful APIs using Django Rest Framework, wrote Pytest tests, and Dockerized the application.
- Collaborated effectively within a cross-functional team environment.
- Executed responsibilities in alignment with the team leader's directions to ensure accurate and timely task completion.

PROBLEM SOLVING

Contest Participation: 120+ (Online and Offline)
Individual:

Rank 13, DIU Take-off Programming Contest, Fall 2021
Pupil on ***Codeforces,*** Max Rating 1302
Solved 280 problems on **Leetcode**
Tackled **1200+** problems across multiple online judges

Team:
Participated in ICPC Dhaka Preliminary 2022, 2023

PERSONAL PROJECTS

ShareThoughts API
- Built a robust ShareThoughts API using FastAPI, PostgreSQL, and SQLAlchemy, with full CRUD operations, JWT authentication via OAuth2, database migrations using Alembic, and unit testing with pytest.

Grocery Management System
- Built a full-stack Grocery Store Management Web App using FastAPI, MySQL, and Bootstrap. Implemented product and order data management with automatic order total calculation. Used Pytest for backend testing.

Travel Booking API
- Developed a Django REST API Travel Booking with features like property, room and rate management, booking and mock payment system. Implemented JWT authentication, automated testing with Pytest, and containerized the application using Docker for seamless deployment with CI/CD via GitHub Actions and Render.

Coding Pathshala
- A comprehensive School Management System using Django framework. The system includes a clean and user-friendly UI, along with full CRUD functionalities for managing Students, Teachers, Departments, and Courses. Secure authentication is also implemented to protect user data.

LANGUAGE PROFICIENCY
- **Bangla** – Native (Excellent command in reading, writing and speaking)
- **English** – Proficient (Excellent command in reading, writing and speaking)
