FullStack Developer(Fresher)

Professional Summary

A driven FullStack Developer with hands-on experience delivering production-grade systems across React, .NET, MAUI, and RESTful architectures. Adept at translating business requirements into scalable, resilient software, with a strong bias toward backend engineering, system monitoring, and real-time data pipelines. Known for owning modules end-to-end, optimizing concurrency, and building systems that continue to function even when the internet doesn't.

Technical Skills

- **Frontend:** React, Bootstrap, HTML, CSS, JavaScript
- **Backend:** .NET, ASP.NETCore, RESTAPIs, EFCore, Java, Hibernate
- **Desktops System Apps:** WinForms, MAUI
- **Databases:** MySQL, SQLite
- **Real-Time Communication:** SignalR
- **Networking:** Ping-based connectivity checks
- **ToolssPractices:**Installercreation,Auto-updaters,CSV/PDFgeneration
- **DSA:** Basic understanding of Data structure and algorithm

Professional Trainings Experience

SoftwareTrainee-RisolutorTechnologies*Duration:4Months|Stipend:₹10,000*

- Contributed directly to live projects and enterprise-grade applications.
- Worked across backend and frontend integration.
- Delivered features under real time lines and production constraints.
- Gained exposure to system-level programming ,monitoring, and deployment workflows.

Project Experience

FSM Project (Full Stack Module Development) *Role: Backend(Rest-Api) & Frontend Integration Developer*

- Designed and implemented Invoice Creation & Download functionality.
- Enabled CSV and PDF exports for Reports.
- Implemented runtime dynamic form template creation with dynamic database tables.
- Developed Leave Management System with CRUD operations with soft delete.

Window Monitoring Application(End-to-End System)

- **Installer Application(MAUI, .NET, HTTPClient):** Guided installer flow with license validation, auto-start, silent installation, and auto-restart features.
- **Monitoring Application :** Implemented system-level monitoring (app tracking, tab switching, idle time) with SignalRHub for data transmission.
- **Monitoring Data Receiver(Windows Service):** Reliable SignalR client with offline SQLite storage, smart retry, and auto-sync.
- **Updater Application:** Automated update engine with safe termination, backups, installation, and restart.

Education

Bachelor's Degree-Computer Science and Engineering

Sardar Raja College of Engineering, Alangulam.

2025 passed out with First Class(7.85)

HSC – Computer Science

TPS Govt Boys Higher Secondary School, Pavoorchatram.

2021 passed out with 75%

SSLC- TPS Govt Boys Higher Secondary School, Pavoorchatram.

2019 passed out with 66%
