REHNA S

Email: rehnaskpm@gmail.com—LinkedIn:https://www.linkedin.com/in/rehna-s-145a34323
Ph.No: 8606075116—Address:chalilveedukaniyapuram
Trivandrum, Kerala, India

Professional summary

Passionateabouttechnology andinnovation with a strong foundation in electronics hardware and software systems. Currently exploring Python full-stack development, mastering object- oriented programming, and strengthening coding fundamentals.

Skills

Technical skills

- Programming: Python,data types, loops, functions, OOP , SQL database handling,html,css,java script, bootstrap,django,flask.
- Embedded Systems: Arduino, Microcontrollers.
- Tools and Platforms: VS code,github

Soft skills

- Problem Solving and Analytical Thinking
- Adaptabilityand Time Management
- Effective Communication and Team Collaboration

Academics

- **B.Tech inElectronics and Communication Engineering** — Muslim Association College of Engineering Technology, Trivandrum (APJ Abdul Kalam Technological University), 2025
- **Higher secondary education**—MGHSS Kaniyapuram,Trivandrum ,2020
- **SSLC** — MGHSS Kaniyapuram , Trivandrum ,2018

Projects

AlcoholDetection and Engine Locking System

- Designed an alcohol-detection and engine-locking system using an MQ-3 sensor, Arduino Uno, and LCD interface.
- Developed real-time monitoring logic for alcohol detection, threshold comparison,and system response.
- Implemented automatic engine shutdown, alarm activation, and safety alerts to prevent drunk-driving incidents.

Unmanned water vehicle for human detection

- Developed an unmanned flood search vehicle integrating ESP32, Ultrasonic and Radar sensors, camera, GSM, and GPS modules.
- Implemented real-time human detection using YOLOv4 with Python.
- Focused on object detection programming and user interaction for efficient rescue operations.

Internship

PythonFull-Stack Development – Quest Innovative Solutions, Trivandrum

- Gaining practical training in Python programming and basic project development.
- Strengthening understanding of OOP concepts and Python fundamentals.
- Building hands-on skills in SQL for data storage, retrieval, and query operations.

Embedded Systems – ICT Academy, Technopark Trivandrum

- Gained hands-on experience in working with microcontrollers, sensors, and real-time applications.
- Involved in circuit debugging and project prototyping.

Achievements

- Techfest Volunteer: Event Coordinator and Technical Support
- Athletics: College Team Member

Language known

- English: Speak,Read,Write
- Malayalam: Speak, Read, Write

Declaration

Iherebydeclarethat all the information given above is true and correct to the best of my knowledge.
