EDUCATION

Maharana Pratap Engineering College, Kanpur **2023 – 2025**
Master of Computer Applications - ***CGPA - 8.17*** *Kanpur,Uttar Pradesh*

Chhatrapati Shahu ji Maharaj University, Kanpur **2020 – 2023**
Bachelor of Science - ***CGPA - 7.40*** *Kanpur,Uttar Pradesh*

City Public School, Farrukhabad, Uttar Pradesh **2019 – 2020**
Senior Secondary XII - ***CGPA - 7.9*** *Farrukhabad,Uttar Pradesh*

City Public School, Farrukhabad, Uttar Pradesh **2017 – 2018**
Secondary X - ***CGPA - 7.68*** *Farrukhabad,Uttar Pradesh*

EXPERIENCE

Intern at Lohia Corp Limited **July 2025 - September 2025**
Role - Data Analyst *Kanpur, Uttar Pradesh*

- Collected, cleaned, and transformed raw datasets using Excel, SQL, and Python (Pandas, NumPy) to ensure accuracy and consistency.
- Created interactive dashboards and reports using Power BI to support data-driven decision-making.
- Gained hands-on experience with statistical techniques, data visualization, and data storytelling.

PROJECTS

Weather Forecasting App | Python,Tkinter,API **September 2025**

- Developed a Weather Forecasting Desktop Application using Python Tkinter with real-time API integration.
- Built a user-friendly GUI-based Weather App in Python to display live weather updates.
- Integrated API-driven weather data with Python Tkinter for accurate city-based forecasting.
- Designed and deployed a responsive Tkinter interface for real-time weather predictions.

Billing Software | Python **August 2025**

- Developed a Billing Software using Python for automated invoice generation and customer billing.
- Implemented product entry, price calculation, and tax computation features in Python Billing software.
- Engineered a Python program to manage billing,and customer receipts.

Banking Data Analysis | Excel, Power BI, MySQL, IDE-Jupyter Notebook **July 2025**

- Extracted and managed banking transaction data using MySQL queries for filtering, joining, and aggregating large datasets.
- Performed exploratory data analysis (EDA) in Jupyter Notebook using Python (Pandas, NumPy, Matplotlib) to identify customer spending patterns and transaction anomalies.
- Built interactive dashboards in Power BI to visualize customer demographics, loan performance, and fraud detection trends.

TECHNICAL SKILLS

Languages: C, Python, SQL
Frontend/Libraries: HTML5, CSS3, Numpy, Matplotlib
Developer Tools: VS Code, Jupyter Notebook, Github, MySQL Workbench, pgAdmin
Data Visualization : Power BI, Excel (Pivot Tables, VLOOKUP, Charts, Dashboards)

CERTIFICATIONS

- Power BI Micro Course - Satish Dhawale
