SUMMARY

Full Stack Development Intern with hands on experience in building responsive web applications using HTML, CSS, and JavaScript. Familiar with front end development, API integration, and version control using Git. Eager to apply my skills and grow in a web development or IT role.

SKILLS

Programming Languages: Python, JavaScript, Java

Frontend Technologies: HTML5, CSS3,React.js, Responsive Design

Database Management: MySQL, Database Design, SQL Queries

Data Science & Machine Learning: Decision Tree, Random Forest, Support Vector Machine (SVM), Predictive Modeling

Development Tools: Visual Studio Code (VS Code), Git

Core Competencies: Full Stack Development Fundamentals, Frontend Development, Backend Development, Client Server Architecture, Web Application Development

Soft Skills: Teamwork & Collaboration, Problem Solving, Critical Thinking, Time Management, Self Learning, Adaptability, Communication

CMS: WordPress

EXPERIENCE

Full Stack Development Intern

SMEC Labs Kaloor| Apr 2025

- Gained comprehensive hands on training in full stack web development, covering both frontend and backend technologies
- Learned fundamentals of frontend development including HTML, CSS, and JavaScript for creating interactive user interfaces
- Studied backend development concepts including server side programming, API integration, and database connectivity
- Built and managed web applications, understanding the complete development lifecycle from design to deployment
- Understood client server architecture, database handling, and best practices for web application development

PROJECTS

College Course Prediction System Using Data Science

- Developing a machine learning model to predict suitable college courses based on student academic performance and preferences
- Analyzed dataset of 1,500+ student records to identify patterns and trends in course selection and academic success
- Implemented multiple machine learning algorithms including Python, Decision Tree, Random Forest, and Support Vector Machine (SVM)
- Achieved 73% prediction accuracy using SVM model, demonstrating strong understanding of data preprocessing and model optimization
- Designed an intuitive Graphical User Interface (GUI) for seamless user data input and personalized course recommendations

EDUCATION

Calicut University

Bachelor of Computer Application (BCA)

- CGPA: 8.175/10

SNDP Palisherry

Higher Secondary Education

- Percentage: 92%

Socrosso GHSS Mala

Secondary School Leaving Certificate (SSLC)

- Percentage: 100%

CERTIFICATIONS

- National Seminar and Conference on Emerging Trends in Information Technology: March 2025
- Certificate of Participation on Basis of Networking and Cloud Computing by KGiSL: February 2025
- Workshop: Build Mobile Apps with Flutter by Spectrum Solution: August 2024

• Workshop: AI for Students - Build Your Own Generative AI Model: November 2023, Conducted by AI expert and IIT Delhi alumnus Mr. Trivikrama from NXT Wave

LANGUAGES

- English: Fluent
- Malayalam: Native
- Tamil: Proficient
