Summary

B.Tech graduate in Computer Science and Engineering with hands-on experience as a MERN Stack Developer Intern at Luminar Technolab, Kochi. Skilled in developing dynamic, responsive, and user-friendly web applications using MongoDB, Express.js, React, and Node.js. Experienced in both front-end and back-end development, delivering complete solutions that meet project requirements. Passionate about clean code, performance optimization, and staying updated with modern web technologies.

Technical Skills

- **Programming Languages**: JavaScript, Python, C, C++
- **Web Technologies**: React.js, Node.js, Express.js, MongoDB, HTML, CSS, Bootstrap, Tailwind CSS, React-Bootstrap, Material UI
- **Tools**: GitHub, Postman, JSON Server, Figma, Overleaf, Visual Studio Code

Experience

- **Luminar Technolab** — Kochi, India
  Full Stack Developer Intern — *August 2024 – March 2025*
  - **Application Development**: Completed an internship in MERN Stack development, where I built several responsive and dynamic web applications using React.js, MongoDB, Node.js and Express.js.
  - **Frontend & Backend Integration**: Gained practical experience in integrating front-end interfaces with back-end services, ensuring full-stack functionality and user interactivity.
  - **UI/UX Implementation**: Designed user-friendly interfaces using HTML, CSS, Bootstrap, and Tailwind CSS, focusing on performance and responsiveness across devices.

Projects

- **Fitness World**: A MERN stack fitness app with three dedicated panels for users, trainers, and admins. Key features include personalized workout plans, live video sessions with trainers, AI chatbot assistance, and BMI/BMR calculators. Integrated JWT and Google OAuth login, Multer for file uploads, and robust admin controls.
- **CasaFind**: A full-stack MERN real estate application with dashboards for users and admins. Users can register, upload, edit, delete, buy, and bookmark properties, with JWT authentication, Multer for image uploads, Tailwind CSS for styling, and Axios for API integration. The admin panel manages users and all property listings.
- **ProjectVerse**: A MERN stack project fair platform with secure authentication. Users can showcase, edit, and delete their projects, manage profiles through a personalized dashboard, and view all uploaded projects from all users on a dedicated, user-friendly projects page.
- **Echo Play**: A media player built with React.js, Axios, and JSON Server that allows users to upload and manage videos with related data. It supports drag-and-drop for easy content categorization, tracks viewing history, and offers a smooth, responsive interface for organizing media across devices.

Education

- **APJ Abdul Kalam Technological University** — Kerala, India
  B.Tech in Computer Science and Engineering; CGPA: 7.84 — *2020 – 2024*
  - **Relevant Coursework**: Data Structures and Algorithms, Object-Oriented Programming, Software Engineering, Database Management Systems

Achievements

- Presented a seminar for a paper publication on Virtual Try-On System.
- Active member of Innovation and Entrepreneurship Development Centres (IEDC).
