BHAGYA REKHA AMBATI

QA AUTOMATION ENGINEER

Hyderabad, IN 500001 • +91 8374193818 • ambatibhagyarekha274@gmail.com

PROFESSIONAL SUMMARY

QA Automation Engineer with 6+ years of comprehensive experience in software testing, including 4 years in automation using Selenium and Java, and 2 years in manual testing. Skilled in developing and maintaining automation frameworks, integrating CI/CD pipelines, and performing API validation. Proficient in Agile/Scrum methodologies with strong collaboration, defect management, and end-to-end test execution skills. Committed to ensuring software quality through optimized automation and thorough manual validation.

TECHNICAL SKILLS

- **Automation Tools**: Selenium WebDriver (Java), Selenide, TestNG, Cucumber (BDD), Docker
- **Manual Testing**: Functional, Regression, UAT, Sanity Testing
- **CI/CD Tools**: Jenkins, Azure DevOps, Maven
- **API Testing**: Postman
- **Version Control**: Git, Bitbucket
- **Defect Tracking**: JIRA, Azure DevOps, BugDB, FogBugz
- **Methodologies**: Agile, Scrum (Sprint Planning, Stand-ups, Client Meetings)
- **Other Tools**: Basic knowledge of Tosca (Tricentis)

PROFESSIONAL EXPERIENCE

QA Automation Engineer

Tata Consultancy Services Pvt Ltd - Hyderabad, India 03/2022 - Current

Developed and maintained automation frameworks using Selenium, Cucumber, and Java for insurance applications, integrated with Azure DevOps CI/CD pipelines. Led workflow automation with Selenide, improving coverage and efficiency. Performed regression, sanity, and API testing using Postman, ensuring stability and reliability. Integrated automation suites with Jenkins and Docker for scalable execution, and collaborated with clients for sprint demos, issue triage, and high-quality releases.

Project #1: MetLife, Brazil.

• Developed and maintained automation test scripts using Selenium with Java for complex web-based insurance applications.

• Designed and implemented a BDD framework from scratch using Cucumber, enhancing test readability and reusability.

• Integrated the automation framework with Azure DevOps CI/CD pipelines for seamless continuous testing.

• Created and executed comprehensive functional, regression, and smoke test cases to ensure product quality.

• Collaborated closely with developers, business analysts, and QA teams to validate user stories and automation feasibility.
• Performed sanity, regression, and end-to-end testing during each sprint cycle in Agile environments.
• Generated detailed test execution and automation reports, improving visibility of test results across teams.
• Managed suite execution through JAR creation and pipeline integration, optimizing automation run efficiency.

Project #2: Ingram, Barcelona.

• Led end-to-end workflow automation using Selenide and Java, improving test coverage and execution efficiency.
• Designed and developed reusable and modular test components, enhancing maintainability, and reducing redundancy.
• Integrated automated test execution with Jenkins and Docker, enabling scalable and distributed test environments.

Performed API validation using Postman, and enhanced automation scripts to ensure greater reliability and consistency.
• Conducted cross-browser and cross-platform testing, ensuring smooth functionality across multiple environments.
• Collaborated directly with clients and stakeholders for sprint demos, progress updates, and issue triage discussions.
• Supported manual regression and UAT testing, ensuring stable and high-quality product releases.
• Documented test results, automation strategies, and process improvements, contributing to continuous QA enhancement.

Test Analyst
HCL Pvt Ltd - Hyderabad 11/2020 - 03/2022

- Created and maintained Selenium WebDriver (Java) automation scripts to expand test coverage.
- Conducted manual testing (Functional & Regression) for financial applications.
- Executed automated test suites, logged defects in JIRA, and ensured timely resolution.
- Participated in Agile ceremonies and prepared detailed test summary reports.
- Coordinated with offshore teams for effective QA delivery.

Test Analyst
Infosys Pvt Ltd 11/2018 - 10/2020

- Performed functional, GUI, Regression, and Sanity testing.
- Collaborated with developers for defect triage in Agile cycles.
- Mentored new team members on automation processes and best practices.
