Gmail: sivasankarpatamata@gmail.com **Address:** Kukatpally, Hyderabad, India

Summary

Motivated IT graduate currently training in Python Full Stack development using Django and REST APIs. Skilled in Python, Java, SQL, HTML, CSS, and JavaScript with hands-on internship experience in full stack development and machine learning.

Education

- NRI Institute of Technology | **B. Tech** in Information Technology | **CGPA:** 8.3 / 10 | **Year:** 2020 - 2024
- Sri Chaitanya Junior College | **Intermediate** (Class XII) | **CGPA:** 9.3 / 10 | **Year:** 2018 - 2020
- Swarna Bharathi High School | **SSC** (class X) | **GPA:** 9.8/ 10 | **Year:** 2017 - 2018

Skills

Programming languages: Python, Core &Adv Java **Data Base:** SQL, RDBMS

Frameworks& Tools: Django, Django REST Framework (DRF), REST APIs.

Web Technologies: HTML, CSS, JavaScript, React JS

Project

Classification of Polyps in Endoscopic Images Using Self Supervised Structured Learning

- ✓ Developed a deep learning model for detection and segmentation of polyps in gastrointestinal endoscopic images for early diagnosis.
- ✓ Implemented Deep Context Metric Learning for organ segmentation from MRI datasets including stomach, large bowel, and small bowel.
- ✓ Enhanced accuracy and reliability for medical image analysis workflows.

Internships

H M I | Full Stack Programming using Java | Year: February 2023 to June 2023

- Interned at HMI, used Java for full-stack programming, and picked up HTML CSS and JavaScript for web development.
- Built a user-friendly social networking system for seamless communication.

Blackbucks Engineers Pvt Ltd | Machine Learning Intern | Year: June 2022 to September 2022

- Designed a real-time face mask detection system using machine learning and computer vision techniques.
- Improved prediction capability using data preprocessing and image classification models.
- Collaborated on a team project for "Real Time Face Mask Detection" during my ML internship.

Interests

- Application Building , Web Development, Machine Learning, Problem Solving
- Open Source Contribution
